WAGNER PARK FLOWERS

Wagner Park Nurseries, Sidney, Ohio.

Foreword

AFTER nearly a quarter of a century of conscientious service to American garden lovers, Wagner Park Nurseries again present their Spring catalog and invite consideration of the almost endless assortment of beautiful growing things.

Wagner plants have won a country wide fame for their beauty and their vigor. Our own selection and propagation of the stock gives Wagner plants a hardiness which is fully appreciated by our customers.

The packing for shipment of all that goes out from Wagner Park Nurseries is so carefully done that the plants arrive at their destination ready for replanting and continued growth. With little doubt this insures their doing well in their new surroundings.

Wagner Landscape Service helps solve the problem of garden design, at the same time securing for the home surroundings a beauty in the shortest possible time. This service is available by mail or personal supervision and correspondence is invited no matter how simple or extensive the work contemplated. If you do not already know of Wagner Park Landscape Service, then we invite you to write us fully of your needs and learn for yourself how painstakingly we fulfill the claims we make.

In the following pages will be found an almost endless variety of hardy plants, trees, and shrubbery, to create beautiful and artistic effects. We, at Wagner Park have an ideal beyond the immediate commercial transaction, and that is, to have every plant sent out serve the purpose of making a more beautiful spot than it was before.

In soliciting your order for Wagner plants, we do so with full confidence that the relationship thus established will be of mutual satisfaction.

The Wagner Park Nursery Co.
SIDNEY, OHIO

INFORMATION AND SUGGESTIONS

IMPORTANT—READ CAREFULLY

EARLY ORDERS. Place your orders early, as it is almost impossible during the rush of the planting season to fill an order on short notice without an injustice to others who have their orders previously booked. We practice filling orders in rotation as received, in accordance however, with locality and suitable planting season. In making up your order please give the price or size to avoid delays and errors.

SHIPPING FACILITIES. We are admirably located for making shipments, having the C. C. C. & ST. L. (Big Four) Railroad East and West; the B. & O. Railroad North and South; also the Western Ohio Electric, all of which connect with various lines. We have Express Companies for above railroads, assuring you of prompt and direct service. Unless definite instructions are given, and these can be consistently followed, we must use our best judgment as to how to ship.

PARCEL POST. When found practical we ship by parcel post. The roots are wrapped in damp packing material so will carry to most distant states in good condition unless delayed or left exposed in transit, which seldom occurs. In ordering plants by mail please bear in mind that parcels are limited as to size and weight, and large sizes cannot always be sent by mail. Occasionally we find it necessary to express some orders that are wanted by parcel post or send by parcel post some wanted by express, but such change is made for good reasons, such as a saving to our customers in transportation cost, or because size of package will not warrant it. We must prepay parcel post shipments so if anything is due us, we will send notice of the amount.

PLANTS BY EXPRESS. This is the most satisfactory method of transportation, as it enables us to give good values in the form of fine large stock and shipments usually receives good care in transit. We do not prepay express shipments, but can send larger plants, and if goods are miscarried they are more easily traced, and if damaged in transit it is easier to adjust any such damage as may have occurred. When sent by express we usually send some extras to help defray the charges. In case of any damaged stock notify the express agent immediately of the

damage, as they, as carriers, are liable for any damage done while in transit. Let them also make notation of damage on your express receipt or bill so that no controversies arise later with claim department. We send notice of shipment as soon as forwarded.

FREIGHT SHIPMENTS. This method of shipment is advised only with heavy and bulky stock. Our direct lines North, East, South and West, give us advantages over those who have only one railroad. In case of any damage to shipment while in transit handle as explained for express shipments.

GUARANTEE. We guarantee safe arrival by express or parcel post. Most failures with plants and bulbs growing are due to causes entirely beyond our control, such as unfavorable weather and soil conditions, too deep or too shallow planting, which renders it impossible for us to guarantee success of growth. We take all possible care to supply such stock as will, under proper conditions, grow and produce satisfactory results. We handle and pack all our plants in the best possible manner. Should stock not arrive in good condition, you must report any complaints of this nature promptly or they cannot be entertained. We also guarantee stock to be true to name, and will upon proper proof, replace any that may prove untrue.

REMITTANCES. Remittances should be made by Postoffice Money Order, Registered Letter, Bank Draft, or Express Money Order. Our terms are cash, and remittance should accompany order unless satisfactory references are given. Send remittance with order to avoid delays. We assure you satisfaction.

SPECIAL NOTE. Write your name and shipping address plainly on the sheet containing your order to avoid mistakes and delays. Use separate sheet for your order if possible, and in every case give size or price of the article wanted. Often orders are received without any address which always causes much annoyance, delay and dissatisfaction. Prices unless otherwise noted are F. O. B. Nurseries. We make no extra charge for packing and we use the best packing materials obtainable.

Wagner Park Roses

THE rose is a source of interest to all flower lovers everywhere, and a necessity to every well-planted garden. The demand for good garden roses is greatly on the increase. People are beginning to appreciate the value of introducing roses more boldly in with general plantation. At the same time the "rose garden" is extending its appeal. One may use roses profitable anywhere, often in very restricted space. They have manifold uses as practical climbers, covering ugliness with beauty, clothing bare banks and walls with color and grace.

SPECIAL NOTE—PLEASE READ

We offer of most varieties only two grades. Those listed as one year size are healthy young well rooted plants propagated during the spring and summer of last year, and will under ordinary conditions produce a surprising growth and display of bloom this year, more than doubly compensating for the outlay. Our two year size are grown under the most careful conditions to bring about an abundant supply of roots as well as a reasonable top growth for quick results and effects.

Where we offer extra size roses we refer to plants of age, vigor and sturdiness of growth, to satisfy the most discriminate "rose lover."

SUGGESTIONS FOR SUCCESSFUL ROSE CULTURE

Soil—Any good garden soil will answer, but they thrive best in a soil consisting of considerable clay. In planting your roses or any kind of plants be sure the soil is firmly pressed around and over the roots. Loose soil will not hold moisture and allows air spaces which are sure to result in injury or check their growth. Water freely after planting to help settle the soil around the roots. A light mulch of straw is very beneficial if weather is hot and dry. Stir the soil frequently but not too deep, or the roots will be disturbed. The stirring of the top soil brings moisture to the top of the ground, supplying it directly to the plants, especially when roots are not yet active or established.

FERTILIZER—For a good crop of perfect roses considerable fertilizer should be used, which should consist of well decomposed manure, cow manure is preferable. Allow no manure to come in direct contact with the roots when planting as this will result in injury by heating or otherwise affecting the roots. Use good top soil or loam next to roots for the best results.

PRUNING—Severe pruning is necessary when first planted, and cut off two thirds of branches early every spring. Keep all dead wood cut out at all times and especially in spring when plants are starting new growth, as to leave the dead branches would only exhaust the sap that should go to live wood.

ENEMIES—When grown under favorable conditions, roses are not apt to be attacked by insect pests or other troubles as is the case if half starved and otherwise neglected. Our own experience shows that a weekly application of Bordeaux Arsenate of Lead Mixture, at the rate of eight ounces to five gallons of water, applied with a whisk broom, or any sprayer that will reach the under side of the foliage, beginning at the time that the plants have developed into active growth, and continued throughout the season, will keep them free of almost all insect pests, as well as fungus diseases, but if in spite of this spraying, mildew should affect the foliage, use Sulphide of Potassium at the rate of one-half ounce to one gallon of water. This is sometimes effective where the Bordeaux Mixture fails. It may be necessary to supplement this treatment with several applications of any tobacco solution, or tobacco dust, for greenfly or aphids, which may appear during the growing season.

TOBACCO SOLUTION—Made of boiling the leaves or stems of tobacco. The liquid should be made about the color of weak tea.

SOAP SOLUTION—Dissolve about one ounce of Ivory, or other good soap in one pint of boiling water, adding one and one-half gallons of cold water.

WINTER PROTECTION—Do not cover your plants too soon; a nip of frost will not hurt them, but will help ripen and mature them. Such material as leaves, hay, straw or cedar boughs, corn fodder, etc., will afford excellent protection. In the spring, wait until the weather is settled before uncovering and do so gradually. To uncover all at one time would be exposing the covered plant to a severe and sudden change, frequently causing much damage and oftentimes killing the plant entirely.

Ten Best Hardy Everblooming Roses For General Planting

From our years of experience we have selected the ten following varieties as best for general planting. Due consideration being given to hardiness, habit of growth, color, and freedom of bloom. Plant them freely; even the one-year size will surprise you with growth and blossoms the first year. In this list of ten kinds you will find the choicest of each of the different shades of color and only those of real merit. All possess the hardiness of the Hybrid Perpetual or June Rose and also the everblooming qualities, from this list of ten varieties. We have selected them especially for those of our clients who are not familiar with the large variety now offered. They are all popular kinds and sure to give satisfaction. Our efforts in selecting and suggesting these ten best varieties for general planting were well rewarded by the satisfaction our clients expressed through the results they obtained from the plantings ordered of us. Under ordinary conditions the one-year size will doubly repay you even the first year for the outlay.

GRUSS AN TEPLITZ. (Crimson Hermosa). This grand Rose has proven one of the best and most valuable hardy crimson everblooming Roses for garden planting ever introduced. The color is dark, rich crimson, passing to velvety, fiery red, the very brightest colored Rose we know. Flowers large, full, and sweet; blooms constantly, throwing up fresh buds and flowers the whole growing season. **1-yr. size, 15c; 2-yr. size, 60c.**

HERMOSA. A remarkable Rose, having the strength and style of the Hybrid Perpetual and the free-flowering qualities of the Tea. It would be a waste of words to write a lengthy description of Hermosa. The color is a most pleasing shade of pink, very fragrant. A grand Rose for bedding or pot culture. **1-yr. size, 15c; 2-yr. size, 50c.**

JONKHEER J. L. MOCK. Like the rest of the Rose-growing world we are enthusiastic in praise of this famous Rose. The color is carmine on the outside, which contrasts beautifully with the lovely imperial pink of the inside of the flower as the petals unfold and curl, and the exquisite blooms are produced freely on stiff, erect stems. The flowers are very large, perfectly formed and highly perfumed. **1-yr. size, 20c; 2-yr. size, 75c.**

KAISERIN AUGUSTA VICTORIA. An unsurpassed Rose of great beauty. This exquisite variety still retains its place as the foremost and best white Rose for general planting. It is perfectly hardy in all localities and produces continuously throughout the season glorious, fully double flowers with a delicious Magnolia-like fragrance. Color is a most delicate, creamy white. **1-yr. size, 20c; 2-yr. 75c.**

LA FRANCE. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color peach-blossom pink, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues blooming until stopped by freezing weather. **1-yr. size, 20c; 2-yr. size, 60c.**

MAD. ABEL CHATENAY. This is a wonderful strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer; flowers of good size, double, with slightly recurved petals; elegant buds; color rosy-carmine, shaded salmon. **1-yr. size, 15c; 2-yr. size, 60c.**

MADAM CAROLINE TESTOUT. Probably no Rose stands higher in public estimation today. It is a wonderful Rose. The petals are large and of elegant form. Both flowers and buds are extra large; color is brilliant satiny rose, deepening in center to clear red. It is of excellent substance, keeps its color well and its splendid, large, globular flowers impress everyone with a sense of its superiority and great beauty. **1-yr. size, 20c; 2-yr. size, 75c.**

OPHELIA. One of the most beautiful and popular of recent cut-flower favorites, with perfect flowers of distinct form, lavishly produced, emitting the exquisite perfume of the Richmond type; salmon-flesh shaded with rose. **1-yr. size, 25c.; 2-yr. size, 75c.**

PRESIDENT TAFT. This is undoubtedly the finest bedding Rose yet introduced. The flowers are double, very sweet-scented, and are of deep pink color. They are very showy and valuable for cutting. The plants are free from disease, which is another point claimed in its favor. **1-yr. size, 20c.; 2-yr. size, 60c.**

THE BURBANK ROSE. The color is described as cherry-crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during winter. It is a strong, vigorous grower, making well rounded, bushy plants. The Burbank can be planted anywhere and is without doubt the finest flowering Rose in cultivation. It commences to bloom when only a few inches high, and blooms throughout the season until stopped by freezing weather. The flowers are double and most pleasing in their rich beauty and delightful fragrance. **1-yr. size, 15c; 2-yr. size, 60c.**

Recent Novelties in Roses

COLUMBIA. A splendid, large, fully double Rose of very lasting qualities. It is a strong grower, almost thornless, with brilliant rose-pink flowers, sometimes lighter pink. A great prize-winner. It blooms freely and produces perfect blooms all season. 1-yr. size, 25c; 2-yr. size, \$1.00 each.

ROSA HUGONIS. A remarkable and very valuable Rose brought from China. It is of shrub-like habit and naturally forms symmetrical bushes attaining a height of about 6 feet. Very valuable for planting in shrubbery borders. Its delicate single yellow flowers are produced in long arching sprays in May. Perfectly hardy. 1-yr. size, 75c.; 2-yr. size, \$1.50 each.

LOS ANGELES. A Rose of unusual beauty of coloring, being a luminous, flame-pink toned with coral and shaded with translucent gold at the base of the petals. The flowers are perfect in form and borne erect on strong, branching stems. Growth is vigorous. 1-yr. size, 50c; 2-yr. size, \$1.00 each.

MME. BUTTERFLY. Color is a harmony of pink, apricot, and gold. The flowers resemble Ophelia in form. This Rose is largely grown for cut-flowers and keeps well when cut. Fine for bedding, for if kept well cultivated and in good growing condition it will produce flowers almost continuously all summer and until frost. 1-yr. size, 25c; 2-yr. size, \$1.00 each.

Wagner Park Famous Cochet Roses

The real Rose lover cannot afford to miss these particularly famous Cochet Roses. The three varieties we offer are not surpassed by any others in beauty of flowers and productiveness. They are constantly in bloom and are hardy in all localities, except the extreme North, where protection and mulching are necessary to bring them through some winters we frequently experience.

MAMAN COCHET PINK. A deliciously sweet-scented Rose and a most vigorous grower. The flowers are superb and we consider it one of the choicest and most beautiful Rose grown. The buds are long and pointed and flowers are of enormous size, very full and double. The color is a rich pink, elegantly shaded with rose and crimson. An excellent bedding variety. Very free to bloom, even as a pot plant for the house. 1-yr. size, 25c.; 2-yr. size, 75c.

MAMAN COCHET YELLOW. (A. H. Gray). An exceptional deep lemon yellow which intensifies as the blossoms develop. Much like the Maman Cochet Pink in habit and substance. Strong grower. 1-yr. size, 35c; 2-yr. size, \$1.00 each.

MAMAN COCHET RED. An exceedingly beautiful and splendid Rose for general planting. Very vigorous and healthy, throwing up strong shoots, and producing great masses of beautiful blossoms, and this is continuous throughout the entire season. Flowers are fully double, and sweetly scented. Color a bright rose-red, elegantly shaded. A most valuable everblooming variety. 1-yr. size, 25c.; 2-yr. size, 75c.

MAMAN COCHET WHITE. A remarkably free blooming variety equal to Maman Cochet Pink in every particular. The blossoms are large, fully double, and a pure white in color. Very fragrant and should be included in every Rose collection. 1-yr. size, 25c. 2-yr. size, 75c.

Wagner Grown Tea Roses---For Southern and Pacific Coast States

This class of Roses is celebrated the world over for their delicious fragrance and the exquisite forms and rich, charming tints of their beautiful flowers. They are without question the most profuse of all, being in flower through the entire growing season; especially for the Southern and Pacific Coast States, although they may be planted in the Northern States but must be protected over winter. Our list comprises only the best and choicest varieties.

ALEXANDER HILL GRAY. Color deep lemon-yellow, which intensifies as the blooms develop. A large flower of great substance and perfect form. 1-yr. size, 35c; 2-yr. size, \$1.00 each.

APRICOT. An old favorite, very vigorous grower and a most free bloomer, and quite fragrant. The flowers are of elegant fragrance and apricot-yellow, very rare among Roses. 1-yr. size, 15c; 2-yr. size, 60c.

CLOTHILDE SOUPERT. Double, pearly white; center pink. This variety is always in bloom, making it desirable for pot culture. 1-yr. size, 15c.; 2-yr. size, 50c.

DUCHESS DE BRABANT. Shell pink; very free flowering. 1-yr. size, 20c; 2-yr. size, 60c.

ETOILE DE LYON. A rich yellow. 1-yr. size, 25c; 2-yr. size, 75c.

MRS. B. R. CANT. Choicest red of this class. A healthy, vigorous grower, producing great masses of splendid Roses the whole growing season. Flowers are perfect double and deliciously sweet. Very free flowering. Color bright rose-red, elegantly shaded. 1-yr. size, 25c; 2-yr. size, 75c.

SOUV. DE PIERRE NOTTING. Color orange-yellow, dashed and bordered soft carmine-rose. 1 yr. size, 20c; 2-yr. size, 65c.

General List of Hybrid Tea Roses

We here offer a general list of hardy everblooming Roses from which a selection may be made of any particular kind or color, but for general planting results and satisfaction, we highly recommend the ten listed on page four.

CHAMPION OF THE WORLD. The name describes it, for of its color it is surely a champion. It flowers continuously the whole season through. Bears greatest profusion flowers of fine size, full, deep and double; color lovely clear, deep pink. If you want a sturdy substantial, free-flowering Rose, plant a Champion of the world. 1-yr. size, 15c; 2-yr. size, 50c.

ECARLATE. Color a solid, brilliant scarlet. Profuse bloomer, strong, sturdy grower. 1-yr. size, 25c; 2-yr. size, 75c.

ETOILE DE FRANCE. The flowers are a shade of clear red crimson-violet; very fragrant. 1-yr. size, 20c; 2-yr. size, 65c.

HELEN GOULD. Rosy crimson. One of the free-flowering kind. 1-yr. size, 25c; 2-yr. size, 65c.

MRS. DE GRAW. Bright coral-pink; flowers are borne in clusters; very handsome; noted as a free and continuous bloomer; quite hardy, strongly resembles the Champion of the World. 1-yr. size, 15c; 2-yr. size, 50c.

MAD. JULES GROLEZ. A distinct and charming shade of cherry red, free bloomer and in every way a splendid garden Rose. 1-yr. size, 25c; 2-yr. size, 75c.

MAD. SCHWALLER. Color, deep, rosy flesh, deepening on edge of petals. 1-yr. size, 20c; 2-yr. size, 60c.

RADIANCE. Color a brilliant rosy-crimson displaying beautiful opaline-pink tints in the open flower. 1-yr. size, 30c; 2-yr. size, 75c.

RED RADIANCE. A counterpart of Radiance except in color which is a clear cerise-red, a most valuable addition. 1-yr. size, 30c.; 2-yr. size, 75c.

WELLESLEY. Color bright clear rose-pink, reverse of petals silver-rose. 1-yr. size, 25c; 2-yr. size, 50c.

WM. R. SMITH. Softly curled, waxen finished petals, creamy white flesh pink tips, buff at base. 1-yr. size, 25c; 2-yr. size, 75c.

Hardy Everblooming Dwarf Bedding Roses

Used extensively for edging beds of other roses. They are compact, bushy, and produce immense trusses of semi-double flowers from spring until frost.

ANNA MULLER. Bright pink. 1-yr. size, 20c; 2-yr. size, 75c.

JEANNE D'ARC. Very free flowering. Flower trusses very large and a pure milk-white. 1-yr. size, 15c; 2-yr. size, 50c.

JESSIE. Brilliant crimson. 1-yr. size, 25c; 2-yr. size, 50c.

MRS. W. CUTBUSH. A new dwarf rose. Color light pink, yellowish center. 1-yr. size, 20c; 2-yr. size, 80c.

Hybrid Perpetual Roses

MOST DESIRABLE CLASS BECAUSE OF THEIR
LARGE, SWEET, BRILLIANT FLOWERS

The best class to plant, especially in the Northern States, owing to their extra hardiness. They do not need protection, yet a good mulch for winter after the wood is well ripened will be beneficial. While they are called Perpetual, they are not constant bloomers, except those so noted. We list only the choicest varieties, which are exceptionally free flowering, in two-year-old and extra large sizes. All are field grown heavy sturdy plants.

FAU KARL DRUSCHKI. Fine snow-white, free from any yellow or rose tints. An everblooming variety. Large 2-yr. size, \$1.00; extra size, \$1.25 each.

GEN. JACQUEMINOT. One of the most satisfactory to grow. Exceedingly popular. Color a rich crimson scarlet. Large 2-yr. size, 85c; extra size, \$1.00 each.

J. B. CLARK. An intense deep scarlet-rose, shaded dark crimson. A wonderfully strong and upright grower. Exceedingly vigorous. Large 2-yr. size, 85c; extra size, \$1.00 each.

MADAME PLANTIER. The iron clad white cemetery rose; bears hundreds of beautiful snowy-white, fragrant blossoms. Large 2-yr. size, 75c; extra size, \$1.00 each.

MARSHALL P. WILDER. Bright, cherry-carmine, very fragrant. Large 2-yr. size, 85c; extra size, \$1.00 each.

MAGNA CHARTA. The color is a beautiful bright pink, suffused with carmine. Good grower and free to bloom. Large 2-yr. size, 85c; extra size, \$1.00 each.

MRS. J. H. LAING. A grand sort, with satiny flowers of soft, delicate pink. Large 2-yr. size, 90c; extra size, \$1.25 each.

PAUL NEYRON. Long, stiff, thornless stems, with cup-shaped flowers. Bright rose. Very much resembling the American Beauty, the popular cut flower variety. Large 2-yr. size, 90c; extra size, \$1.25 each.

PERSIAN YELLOW. (Austrian Briar). Medium sized deep yellow double flowers very hardy. Large 2-yr. size, 75c; extra size, \$1.00 each.

PRINCE CAMILLE DE ROHAN. Dark velvety crimson, changing to maroon. Large 2-yr. size, 85c; extra size, \$1.00 each.

ULRICH BRUNNER. Shell-shaped petals. Color, cherry red. Fine large flowers. Large 2-yr. size, 85c; extra size, \$1.00.

**TEN HYBRID
Perpetual Roses**

From above
list, our se-
lection of
three to five
varieties only

\$7.50

Rugosa Roses

RUGOSA RUBRA. The Rugosa Rubra are especially suited for our Northern climate, owing to their extreme hardiness and sturdy growth. The foliage of these Roses is most beautiful being a shining, rich dark green and oddly wrinkled. The blossoms are usually single, but very large and showy, and followed in autumn with a profusion of beautiful orange-red or crimson fruits. Excellent for hedges or for planting among shrubbery or hardy borders. Large 2-yr. size, 60c; extra size, 90c.

CONRAD MEYER. Clear, silvery pink color. Large 2-yr. size, 75c; extra size, \$1.00.

NEW CENTURY. A magnificent rose, flowers large and perfectly double. Color, flesh-pink with bright red center, petals bordered creamy white. Large 2-yr. size, 75c; extra size, \$1.00.

SIR THOMAS LIPTON. Double white rose, beautiful in foliage. Large 2-yr. size, 75c; extra size, \$1.00.

Everblooming Climbing Roses

CLIMBING CAROLINE TESTOUT. A climbing form of the old favorite; satiny pink. 1-yr. size, 25c; 2-yr. size, 85c.

CLIMBING CLOTHIDE SOUPERT. Clusters of white flowers shaded with pink. 1-yr. size, 20c; 2-yr. size, 85c.

Especially desirable for Southern and Pacific Coast States. Not hardy in extreme Northern States without some protection.

CLIMBING PAUL NEYRON. Bright satiny-rose changing to carnation-pink. 1-yr. size, 25c; 2-yr. size, 85c.

CLIMBING PINK MAMAN COCHET. An exact counterpart of the pink bush variety. 1-yr. size, 20c; 2-yr. size, 85c.

CLIMBING GRUSS AN TEPLITZ. An exact counterpart of the bush Rose Gruss an Teplitz. Color velvety crimson. 1-yr. size, 25c; 2-yr. size, 85c.

CLIMBING WHITE MAMAN COCHET. Exquisite white flowers are borne in great profusion. 1-yr. size, 20c; 2-yr. size, 85c.

MARY WASHINGTON. A pure white, constant blooming Rose. 1-yr. size, 20c; 2-yr. size, 75c.

REINE MARIE HENRIETTE. A rampant climber; color bright red. 1-yr. size, 25c; 2-yr. size, 85c.

STANDARD OR TREE ROSES

Tree Roses occupy but little space and are a decided addition to any garden.

FRAU KARL DRUSCHKI. The finest white in existence. Price \$2.50 each.

GRUSS AN TEPLITZ. Dark rich crimson. Very fine. Price \$2.50 each.

PAUL NEYRON. Bright rose-pink. Very hardy. Price \$2.50 each.

Special Offer ONE EACH
TREE ROSES 3 VARIETIES **\$6.50**

Hardy Climbing Roses

Very few vines give such an abundance of blossoms as the Climbing Roses. Again there is nothing in cultivation more beautiful and attractive. Surround your house and veranda, cover your pergola, screens, and fences with these famous Climbing Roses. The stock we offer is choice and will give entire satisfaction.

CLIMBING AMERICAN BEAUTY. This new climbing form of the famous Rose so long the American favorite, is as lovely and fragrant as the bush form. The hardy climber blood with which it is crossed, gives healthy, perfect foliage and a strong climbing habit of growth; the abundant bloom being in prime before the June show of the bush type. 1-yr. size, 25c; 2-yr. size, 85c; extra size, \$1.00 each.

CRIMSON RAMBLER. Crimson, semi-double. 1-yr. size, 20c; 2-yr. size, 60c; extra, size, 75c.

DOROTHY PERKINS. A climbing Rose, which is of strong, vigorous growth and general habit, very closely approaches the popular Crimson Rambler; its flowers, which are borne in clusters, are of a beautiful shell pink, full, double, of great size for a Cluster Rose, and deliciously scented. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

EXCELSA. A splendid Climbing Rose, remarkable in many ways but particularly in the brilliant fiery red or intense crimson-scarlet flowers, which are double and borne in trusses of thirty to forty flowers. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

EMPRESS OF CHINA. Delicate, bright pink flowers, very free flowering. 1-yr. size, 25c; 2-yr. size, 60c.

LADY GAY. A seedling of the popular Crimson Rambler, which it closely resembles in habit and vigor of growth, but with flowers of a delicate cherry-pink, fading to a soft tinted white. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

PAULS SCARLET. A gleaming vivid scarlet color. Medium semi-double flowers, in clusters. 1-yr. size, 25c; 2-yr. size, 75c.

PINK RAMBLER. Pink flowers. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

RUSSELL'S COTTAGE. Dark, velvety crimson. 1-yr. size, 25c; 2-yr. size, 75c.

THOUSAND BEAUTIES. (Tausendschon). The most sensational climbing Rose. Imagine a luxuriant Rose literally covered with thousands of large double, beautiful, bright blossoms and of the most delicate shade of pink. The color might be described as white, delicately flushed with pink which changes to rosy carmine. The name is derived from the many colors and the great variation in color. Has but few thorns with magnificent foliage free from mildew and absolutely hardy in the open ground everywhere. This variety may also be grown in pots and forced into flowers as is done with many of the tender varieties. 1-yr. size, 20c; 2-yr. size, 60c; extra size, 75c.

VEILCHENBLAU. Steel blue flowers. 1-yr. size, 30c; 2-yr. size, 75c.

WHITE DOROTHY. Brilliant green foliage of splendid texture and free from mildew, flowers are a glistening white and borne in great trusses. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

YELLOW RAMBLER. Yellow flowers. 1-yr. size, 20c; 2-yr. size, 60c; extra size, 75c.

Results from Our Stock of Climbing American Beauties

Wichuraiana, or Memorial Roses

Most satisfactory Roses for covering rough ground, rocks, stumps, or walls; also to climb on trellises. These Roses are very free from mildew and not so subject to insect pests as are many other varieties.

CHEROKEE. Flowers pure white. 1-yr. size, 20c; 2-yr. size, 40c; extra size, 85c.

DR. W. VAN FLEET. Flesh-pink. One of the choicest of its class. 1-yr. size, 25c; 2-yr. size, 75c; extra size, \$1.00 each.

GARDENIA. Very fragrant; creamy yellow. An unusually desirable variety. 1-yr. size, 20c; 2-yr. size, 85c; extra size, \$1.00 each.

HAWAIIA. Ruby-carmine, with white eye. 1-yr. size, 15c; 2-yr. size, 85c.

MANDA'S TRIUMPH. Double pure white flowers, sweetly scented. 1-yr. size, 15c; 2-yr. size, 60c; extra size, 75c.

MEMORIAL ROSE. White with golden center. 1-yr. size, 15c; 2-yr. size, 75c.

SILVER MOON. Extra-large silvery white, semi-double flowers. 1-yr. size, 25c; 2-yr. size, 85c.

UNIVERSAL FAVORITE. Rose color. 1-yr. size, 20c; 2-yr. size, 85c.

Wagner's Hardy Flowers

The Garden of Hardy Flowers is of gorgeous bloom from earliest spring until frost, glorified by its appropriate flowers from month to month new things each day to delight you. Year after year this goes on and the garden increases in beauty and loveliness, practically without any expense other than the first cost. Hardy flowers require less care and attention, are more free from insects and disease, yet producing abundance of beautiful blossoms. Among the Hardy Flowers are found all the old-time favorites and some of the noblest plants that have been dear to our Grandmother's garden, famous in song and story—a fragrant memory of gay sweetness. Hardy Flowers even defy the "melancholy days," for the autumn perennials—the cheerful asters, the dainty Michaelmas Daisies, the many new varieties of Phlox of myriad pastel tints. Even after frost there are the gay Chrysanthemums, the "pompon" of Grandmother's day. Wagner Perennials are strong, splendid plants and include practically everything worth growing in the temperate zone. The vigor, the robust roots of Wagner-grown plants have advertised the merits of Wagner Nursery in every part of the country.

ABBREVIATIONS—Letters D., M., and T., immediately following the name of varieties indicate the height of the various kinds when fully matured, viz.: (D) indicates growing heights from 6 to 18 inches; plant these varieties from 6 to 15 inches apart. (M) indicates height from 18 to 36 inches; plant these varieties 12 to 30 inches apart. (T) indicates height from 36 to 60 inches; plant these varieties from 30 to 48 inches apart.

There is no set rule as to distance for planting the various varieties. That is a matter of taste, for some prefer heavy mass effects, requiring close planting, while more open effects require planting farther apart. We give the two extremes as to distance but one may deviate from this rule, planting closer or farther as desired.

MULCHING—While mulching plants for winter is very beneficial and with many varieties necessary, especially the first winter, many make the mistake of putting the mulch on too early before the plants are well ripened which frequently causes the green growth to decay and will sometimes rot the very crown and heart of plant life or growth. Again this early mulching frequently starts new growths owing to the heat of the mulch, which are killed when the freezing sets in. For best success do not mulch heavily until the ground is thoroughly frozen when the covering or mulch will keep the soil at an even temperature throughout the entire winter and when removed in the spring the new growth will readily start fresh and vigorous, producing healthy, sturdy stalks and flowers. **General Instructions as to planting, care, etc., accompany each shipment.**

ACHILLEA THE PEARL. (D) June to October. This is one of the most beautiful and useful perennials we grow. It is of a low spreading character with pure white flowers. Some are perfectly double, and produced in large sprays. Fine for cutting. **Thrifty plants, 10c; large size, 20c; clumps, 35c.**

BOULE DE NEIGE. (Ball of Snow) (D) An improvement on The Pearl; the flowers are of more perfect form, with fuller centers, which makes it appear purer in color. A valuable plant for the hardy border and for cutting. **Thrifty plants, 20c; large size, 30c; clumps, 50c.**

ANTHEMIS TINCTORIA. (Golden Marguerite) (M) June to September. Golden yellow, one to two inches; sun or shade; border planting and cutting. **Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.**

ASTERS, HARDY (Michaelmas Daisies)
FELTHAM BLUE. (M) One of the most decorative free-flowering blue varieties. **Thrifty plants, 25c; large size, 35c to 50c.**

NOVAE-ANGLIAE. (T) Bright violet-purple flowers. **Thrifty plants 25c; large size, 35c to 50c.**

NOVI-BELGI CLIMAX. (T) One of the best and showiest, with large pyramidal spikes of large light lavender-blue flowers; very free. **Thrifty plants, 20c; large size, 35c to 50c.**

NOVI-BELGI WHITE CLIMAX. (T) A counterpart of above with white flowers. **Thrifty plants, 20c; large size, 35c to 50c.**

AEGOPODIUM VARIEGATA. (D) A rapid growing plant with variegated foliage, thriving in any soil; for covering waste or barren spots. **Thrifty plants, 10c; large size, 15c; clumps, 25c.**

ANCHUSA ITALICA. (M) June, July. Deep blue flowers. **Thrifty plants, 25c; large size, 35c; clumps, 50c to 75c.**

ANEMONES JAPANESE WIND FLOWER. (See illustration rear cover). These beautiful plants are one of the most desirable of all hardy plants on account of their continuation of bloom from early August until cut down by hard frost. All are excellent for cutting, lasting in good condition for many days. They can be used in solid beds or clumps in the hardy border.

JAPONICA ALBA. (D) Individual blossoms, very large; snow white. Very useful for cutting. Choice variety. **Thrifty plants, 20c; large size, 50c.**

QUEEN CHARLOTTE. (M) September. Silvery pink shade. **Thrifty plants, 25c; large size, 50c.**

PRICES IN QUANTITIES Six plants of any one variety listed above will be supplied at five times the single rate price. Twelve plants at ten times the single rate price.

Hardy Chrysanthemums

Many are the lovely flowers that give a succession of beauty throughout the summer days, but when fall comes we have still the best in reserve, notably old-fashioned and really hardy Chrysanthemums. The flowers of these, which are in the greatest profusion, will endure the early frost and early snow storms, and delight us with a show of blooms on such sunshiny days as we may be favored with in late fall. They occupied a place of honor in many an old-fashioned garden where the perennial border was the garden's crowning glory. We now have many new and improved varieties which will make a grand show either planted in clumps in the hardy flower bed or in groups among shrubbery. They are of the easiest culture and will grow in almost any soil. An occasional watering with liquid manure will be beneficial, giving more and better bloom. The hardy Chrysanthemum is especially recommended to inexperienced cultivators, for no class of flowers is easier to manage. Their blooming period is from August to November. Height 18 to 36 inches.

AUTUMN GLOW. Rosy crimson, shading both warm and bright. Thrifty plants, 20c; large size, 50c.

ETNA. Very fine large fully double flower. Color, old rose, with salmon-pink shading; a striking variety. Thrifty plants, 15c; large size, 35c; clumps, 50c.

GLORY OF SEVEN OAKS. Dwarf; golden yellow; very free-flowering, early. Thrifty plants, 20c; large size, 50c.

INDIA. Fiery red flowers, very distinct and showy. Medium size flowers but full to center. Thrifty plants, 15c; large size, 50c.

JULIA. A dwarf grower producing large clusters of flowers of medium size, color, red and bronze with amber shadings, very free flowering. Thrifty plants, 15c; clumps, 50c.

L'ARGENTUILLAIS. Deep chestnut; medium height; early. Thrifty plants, 20c; large size, 50c.

OCONTO. A Japanese variety. White, very large flower; strong rigid stem; early. Thrifty plants, 20c; large size, 50c.

OLD HOMESTEAD. Very large full flower, very free to bloom. Color beautiful lilac-pink. Thrifty plants 15c; large size 50c.

SUPERBA. Large double full flower, color deep rose pink. A beautiful variety and very free flowering. Thrifty plants, 15c; large size, 35c; clumps, 50c.

Grandmother's Hardy Garden Mums

These are the old-fashioned and reliable Chrysanthemums that were so highly prized in the garden corners and alongside the house of "grandmother's home."

We offer the White, Pink, Red and Yellow separate colors. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.

NOTE— For large flowered varieties see page 31.

OTHER HARDY PLANTS

AQUILEGIAS Aquilegias or Columbines are extremely beautiful and a collection of them should be a feature in every garden.

CHRYSAETHIA. (M) May to July. The beautiful golden-spurred "Columbine". Flowers golden yellow. Thrifty plants, 20c; large size, 35c; clumps, 50c.

COERULEA. (M) May and June. Bright blue flowers. Thrifty plants, 25c; large size, 35c; clumps 50c.

NIVEA GRANDIFLORA. (M) A fine pure white sort. Thrifty plants, 20c; large size, 35c; clumps, 50c.

HYBRIDS. (M) Long spurred, various colors, a fine mixture. Thrifty plants, 10c; large size, 20c; clumps, 35 to 50c.

BAPTISIA AUSTRALIS. (M) Handsome, dark green, fern-like foliage. Flowers pea-shaped and bright blue. Baptisia withstands drought exceedingly well. Large size, 35c; clumps, 50c to 75c.

BOCCONIA CORDATA. (T) Flowers in terminal panicles of a creamy white color. Large size, 35c; clumps, 50c.

BOLTONIA ASTEROIDES. (T) One of the showiest of our native perennials, closely resembling and allied to the hardy Asters; flowers pure white; August and September. Thrifty plants, 10c; large size, 25c; clumps, 50c.

LATISQUAMA. (T) Pink, slightly tinged with lavender; four to six feet. Thrifty plants, 10c; large size, 20c; clumps, 35c to 50c.

CASSIA MARILANDICA. (American Senna) July to August. Large panicles of bright yellow. Very distinct. Large, size, 35c; clumps, 50c.

COREOPSIS LANCEOLATA GRANDIFLORA. (D) A gem among hardy plants. It begins to flower in June and continues to bloom more or less throughout the season. The flowers which are of a golden yellow, are of a graceful form and invaluable for cutting. Succeeds in any position. Thrifty plants, 10c; large size, 20c; clumps, 35c.

DIGITALIS GLOXINIAEFLOA. (M) July and August. This strain embraces a wide range of color, from pure white to deep pink. Thrifty plants, 25c; larger size, 35c.

Wagner Shasta Daisies

(See Illustration Rear Cover)

These are universally popular for outdoor planting, and considering their many good qualities there is no cause for surprise to see them planted so extensively. The flowers are of the purest, glistening white, of enormous size and produced on long stiff wiry stems, which make them excellent for cutting purposes.

KING EDWARD VII. (D) A gigantic flower on fine, long stems; color, white, very fine. Thrifty plants, 20c; large size, 35c; clumps, 50c.

MAXIMUM TRIUMPH. (D) Flowers pure, glistening white with golden center. Thrifty plants, 25c; large size, 35c; clumps, 50c.

FUNKIA COERULEA. (D) Their broad massive foliage makes them attractive subjects for the hardy border even when not in flower. Very desirable for shady locations. Blue flowers. Large field plants, 10c; extra large 25c; clumps, 50c.

CORDATA. Large, pure white, lily-like flowers. 50c.

SINENSIS. (D) White tinged blue flowers, green foliage. Large plants, 25c; extra large, 35c; clumps, 50c.

SPATHULATA. Blue flower, green foliage. Large plants, 35c; clumps, 50c.

UNDULATA MEDIA VARIEGATA. (D) Striped foliage, purple flowers. Large plants, 25c; extra large, 35c.

VIRIDA. Green foliage with blue flowers. Large plants, 35c; clumps, 50c.

GILLARDIA GRANDIFLORA. (D) June to October. The petals are vigorously marked with rings of brilliant scarlet crimson, orange and vermillion, and often a combination of all these colors in one flower. Thrifty plants, 15c; large size, 25c; clumps, 50c.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Wagner's Delphiniums

As permanent subjects in the hardy flower garden, we have few plants more worthy of special attention than the Delphinium (Larkspurs). For producing a striking display over a long season, they are probably unique. For general effects in groups or beds they are extremely valuable as a whole, but one is easily carried away on closer inspection by the exquisite beauty of their flowers. Indeed they have many points of excellence, any one of which alone should entitle them to popularity. But to appreciate their beauty one should see them growing, for it is almost impossible to convey anything like an adequate idea of their worth by mere description. The Delphinium of today is one of the most beautiful of all flowers. If flower stems, removed after finished blooming, will continue throwing up new growths and flowers throughout the season.

ENGLISH. Gold Medal Hybrids. (T) Our English Delphiniums are of the truest type as we import our seeds from the best and most famous specialists of England. This collection includes practically all shades of blue in mixed colors and are wonderfully attractive. **Thrifty plants, 15c; large plants, 25c to 35c; heavy clumps, 50c to 75c.**

BELLADONNA. (M) Free and continuous blooming from the end of June until cut down by hard frost. The clear turquoise-blue of its

flowers is not equalled for delicacy and beauty by any other. **Thrifty plants, 15c; large size, 30c; clumps, 50c to 75c.**

CHINENSIS. Dwarf growth; of semi-hardiness foliage small and deeply cleft; flowers loosely paniced; bright dark blue. Very free to bloom. **Thrifty plants, 15c; large size, 25c.**

CHINENSIS ALBA. White form of above. **Thrifty plants, 15c; large size, 25c.**

Hardy Ornamental Grasses

For ornamental purposes, such as hedging, planting in clumps to hide an unsightly object, or singly on the lawn, these grasses are strikingly original in effect and impart a degree of tropical brilliance to the landscape. The plumes which these grasses produce are large and beautiful, having a feathery appearance, and may be used for interior decoration. Absolutely hardy. All our plants are propagated from the root and hence are more valuable than seedlings, which do not come true.

EULALIA GRACILLIMA. This grand variety of Eulalia forms handsome clumps 4 to 5 feet high, which are hardy in all parts of the country. The graceful narrow foliage is beautiful, shining green with midrib of silvery white. **Large size, 15c; clumps, 35c; extra heavy clumps, 50c to \$1.00.**

JAPONICA. One of the most beautiful of the tall-growing grasses. Bright green foliage and unusually long plumes. **Large size, 15c; clumps, 35c; extra heavy clumps, 50c to \$1.00.**

JAPONICA VARIEGATA. Standard old sort of distinctive value. Blades striped lengthwise in a handsome manner, being a combination of creamy white in the center with broad margin of bright green. **Large size, 25c; clumps, 50c; extra heavy clumps, 75c to \$1.00.**

JAPONICA ZEBRINA. This fine ornamental grass is the finest of Eulalias for single lawn specimens or clumping. Grows 4 to 6 feet high. The leaf blades are deep green, distinctly striped crosswise with large bars of pure white. **Large size, 25c; clumps 50c; extra heavy clumps, 75c to \$1.00.**

PHALARIS ARUNDINACEA VARIEGATA. (Ribbon Grass) An excellent variety, very desirable for bordering large beds of other ornamental grasses. **Thrifty plants, 10c; large size, 15c; clumps, 25c to 50c.**

A BED OF HARDY FERNS FOR ONLY \$5.00

Hardy Ferns are unusually desirable for shady places and rockeries.

8 Hardy Ostrich Plume Ferns	}	\$5.00
8 Hardy Lady Ferns		
4 Hardy Osmunda Ferns		
One-half assortment, 10 Ferns		\$3.00
One-fourth assortment, 5 Ferns		\$1.75
Single plants, 50c each.		

These three Ferns represent three distinct types and will make a splendid combination.

HELIPOSIS PITCHERIANA. (M) June to October. A desirable variety. The flowers are of a beautiful deep golden-yellow color, about two inches in diameter. **Thrifty plants, 10c; large plants, 20c; clumps, 35c to 50c.**

HELIANTHUS MAXIMILIAN. (T) September to November. A most graceful single flowering variety; the flowers are produced in long, graceful sprays, which make it invaluable for cutting purposes. The foliage is beautiful, and remains green until late frosts. **Thrifty plants, 10c; large size, 25c; clumps, 35c to 50c.**

English Delphiniums

IBERIS GILBALTARICA. (D) April to June. White flowers fine for edging. **Thrifty plants, 15c; large size, 25c.**

LILY-OF-THE-VALLEY (Convallaria) (D) May White flowers. **Thrifty plants, 10c; large size, 20c; clumps 35c to 50c.**

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Hardy Day Lilies (Hemerocallis)

One of the most beautiful and popular of our garden perennials. The foliage is narrow, and remarkably free from insect enemies. These plants are so hardy that they need no protection over winter, even in the severest climates. They possess a constitution equal to that of Golden Glow. The flowers resemble the famous Easter Lilies. The blossoms are excellent for cutting, lasting a long while and the most backward buds will open in water.

The culture of these plants is very simple as they thrive in almost any kind of soil, but the most luxuriant growth and profusion of blossoms may be had when planted in a shady, moist location. Our stock of Hemerocallis is field grown and can be depended upon to be the truest grown. Certainly no perennial is more worthy of cultivation and none more satisfactory. For massing or planting in the hardy border with other varieties of plants or shrubs it is unrivaled.

APRICOT. (D) A splendid new hybrid. Flowers are a rich apricot shade. **Strong roots, 10c; large size, 25c; clumps, 50c.**

DISTICHA FL. PL. (M) A late bloomer variety. Flowers are double, Orange yellow shaded copper. **Strong roots, 35c; large size, 50c; clumps, 75c.**

DUMORTIERI. (D) A dwarf growing variety and of the earliest to bloom. Flowers a rich candilum yellow, reverse of petals bronze orange. **Strong roots, 15c; large size, 30c; clumps, 50c.**

FULVA. (M) A commonly known variety of easiest culture. Flowers bronzy orange color. **Strong roots, 10c; large size, 20c; extra heavy clumps, 35c.**

FLORHAM. (M) Splendid new large flowering sort; bright yellow flowers. **Strong roots, 35c; large size, 50c; clumps, 75c.**

GOLD DUST. (D) Flowers bright Indian-yellow, buds and reverse of petals bronzy gold. One of the choicest varieties. **Strong roots, 15c; large size, 30c; clumps, 50c.**

KWAMSO FLORE PLENO. (T) Foliage is broad and of good color. Blossoms on long, stiff stems and of orange-yellow color. **Strong roots, 20c; large size, 30c; clumps, 50c.**

LUTEOLA. (M) The long-tubed half reflexed, bright yellow flowers are borne on tall branching stems, each flower very large. **Strong roots, 10c; large size, 25c; clumps, 50c.**

LUTEA MAJOR. (M) Golden yellow flowers on very long stems. Very free flowering. **Strong roots, 25c; large size, 35c; clumps 50c.**

MIDDENDORFII. (M) A native of Siberia and Japan. Blossoms are golden yellow and are fragrant. **Strong roots, 35c; large size, 50c; clumps, 75c.**

SIEBOLDI. (M) Earliest to bloom. Deep orange yellow. **Strong roots, 20c; large size, 30c; clumps 50c.**

THUNBERGII. (D) Blossoms are pure yellow and sweet scented and produced on long stems. Blooms freely. **Strong roots, 15c; large size, 25c; clumps, 50c.**

SPECIAL OFFER DAY LILIES

Plant them freely, sure to give satisfaction.

1 Apricot	1 Disticha fl. pl.

1 Luteola	1 Dumortieri

12 Plants } One each, strong roots, \$1.50;
 } large size, \$2.50; clumps, \$3.50

HOLLYHOCKS

Garden Lover, Have You Tried a Hollyhock Path?

Nothing to do with the "Primrose Path," but incidentally almost the prettiest sight in gardenom.

A "Hollyhock Path" is beautiful, and if you have a chance to make one don't miss it. The stately line of rose and scarlet and faintly flushed salmon sentinels, brilliant and warm in the center and paling to tender tones of nothing-at-all at the ends—well, even your blase "garden expert" gets out his enthusiasm for the Hollyhock Path.

DOUBLE HOLLYHOCKS. (T) Their flowers are large, fully double, handsome in form and lively shades of color. **Double White, Pink, Crimson and Yellow, mixed. Thrifty plants, 20c; large size 35c; clumps, 50c.**

SINGLE HOLLYHOCKS. (T) These handsome and showy plants are great favorites. Their unique growth gives them a welcome everywhere. **Single, White, Pink, Crimson, Mixed colors. Thrifty plants, 20c; large size, 35c; clumps, 50c.**

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Hemerocallis or Day Lilies

WAGNER'S CHOICE NAMED IRIS

PLANT IRISES ANYWHERE. THEY ALWAYS RESPOND WITH A SHOWY MASS OF BLOSSOMS EVEN WHEN PLANTED IN LOW, WET AND BOGGY PLACES OR ON MARGINS OF WATER POOLS AND LAKES

The millionaire may enjoy his hothouse orchids, but nature has placed within the reach of everyone an absolutely hardy substitute, "The Iris." Mysterious as the opal with its ever-changing tints. More beautiful than the orchid so fragile as to be crushed by the slightest pressure. Irises are of low compact growth making them especially desirable for edging.

ATROPURPUREA. Deep purple, large and fine. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

AUREA. Solid chrome yellow flowers, practically no marking. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

ALVELLEA. Upright petals light blue, falls brilliant purple. Strong roots, 25c; large size, 35c.

BLACK PRINCE. Early, rich royal purple. Strong roots, 35c; large size, 50c.

BRIDESMAID. (M) A soft lavender, falls penciled carmine. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

CALIFORNIA. Fine bright sunflower yellow. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

CALYPSO. Pale blue, veined white and pale lilac. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

CELESTE. Celestial blue, changing to porcelain. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

CYTHERA. Stand petals lavender, falls purple, veined white. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

CANARY BIRD. Stand petals bright yellow, falls deep yellow. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

CANDICANS. Stand petals light lavender, falls reddish-purple. Strong roots, 25c; large size, 35c; extra heavy clumps, 60c.

DONNA MARIE. A most beautiful variety, producing large pearly white flower. The outer petals are shaded lilac. Fine for general planting, as it will harmonize with any variety of plants. Strong roots, 25c; large size, 40c; extra heavy clumps, 60c.

DARIUS. Stands petals lemon-yellow, falls lilac, bleaching on edge. Strong roots, 25c; large size, 40c; extra heavy clumps, 60c.

DR. THIEMENT. A deep rosy-purple with deeper veins. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

EDITH COOK. A deep yellow, splashed with purple. Strong roots, 30c; large size, 40c; extra heavy clumps, 60c.

FAIRY. A very light lavender, almost white. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

FLAVESCENS. Light primrose yellow. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

FLORENTINA ALBA. (Orris Root) Very fragrant; color white, tinged with blue. Strong roots, 20c; large size, 35c; clumps, 50c.

FRAGRANS. Stands white, edged blue, falls white, blue veined. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

GERTRUDE. Beautiful violet-blue, solid color. Strong roots, 25c; large size, 35c; extra heavy clumps, 50c.

GLADSTONE. Erect petals white tinged violet, drooping petals deep violet, white stripes at base of petals. Strong roots, 25c; large size, 35c.

GRACCHUS. Erect petals lemon, dropping petals pale yellow reticulated purple; dwarf. Strong roots, 20c; large size, 35c.

HERLEQUIN. Stands pearly-white with purple spots, falls heavy striped with deep purple. Strong roots, 25c; large size, 35c; extra heavy clumps, 50c.

HER MAJESTY. Pinkish violet and deep reddish violet with dark veining. Strong roots, 25c; large size, 35c; heavy clumps, 50c.

HONORABILIS. Stands golden-yellow, falls crimson-brown. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

JOHN De WITT. Stands bluish-violet, falls deep violet-purple. Strong roots, 15c; large size, 30c; extra heavy clumps, 50c.

JULIUS CAESAR. Upright petals yellow, falls brownish stained yellow. roots, 20c; large size, 35c; extra heavy clumps, 50c.

KHARPUT. Standard violet; falls velvety violet purple. Strong roots, 35c; large size, 50c.

MRS. DARWIN. Very fine, large pearly white. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

PALLIDA A. VICTOR. Very large, deep lavender. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

PALLIDA QUEEN OF MAY. Erect petals orange, falls rosy lilac, veined yellow. Strong roots, 20c; large size, 35c; heavy clumps, 50c.

PALLIDA SPECIOSA. Stands dark lavender, falls light purple. Strong roots 20c; large size, 35c; extra heavy clumps, 50c.

PARISENSIS. Early, large and fine. Stand petals beautiful blue, falls deep blue. Strong roots, 20c; large size, 30c; clumps, 50c.

PARKMANI. Upright petals deep lavender, falls purple, large flowers. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

PENELOPE. Upright petals nearly white, falls veined lively purple. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

PLICATA. Stand petals violet purple, falls deep purple. Strong roots 15c; large size, 25c; extra heavy clumps, 50c.

QUEEN OF THE GYPSIES. Center petals light brown, lower petals reddish purple and old gold. Strong roots, 10c; large size, 25c; extra heavy clumps, 35c.

REBECCA. Stand petals golden yellow, falls yellow and plum. Strong roots, 30c; large size, 40c.

SAPHO. Stand petals violet blue, falls rich purple. Early, fragrant. Strong roots only, 50c.

STENOPHYLLA. Color deep blue with darker shadings. Strong roots, 50c; large size, 75c.

SOUVENIR. Upright brilliant yellow, falls veined yellow, buff and maroon. Strong roots, 20c; large size, 35c; heavy clumps, 50c.

SPECTABILIS. Stands pale lavender, falls blue and old gold. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

ULYSSE. Tall, gray tinged brown, fall petals purple. Strong roots, 50c.

VIRGILS. A light brownish blue, lower petals purple and gold. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

WALNERI. Lilac center, lower petals purple. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

WILLIAM III. General effect, a lavender pink, a color rare among Irises. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

MIXED COLORS. A variety of shades and colors. Strong roots, 50c per dozen; large size, \$1.00 per doz.; heavy clumps, \$2.00 per doz.

Some Special and Desirable Kinds

SIBERIAN. (M) Foliage narrow, grass-like and blossoms a clear blue. Strong roots, 20c; large size, 30c; clumps, 50c.

WAGNER'S SNOW WHITE IRIS GIGANTEA. (M) Heavy dark green foliage. Large, pure snow-white blossoms having a waxy appearance. Strong roots, 15c; large roots, 25c; clumps, 50c.

IRIS PUMILA. (D) Rich royal purple. Earliest and dwarfest of all Iris. Strong roots, 50c.

ORCHID IRIS. (M) (Pseudacorus) Rare and beautiful. Flowers are pure yellow, a color rarely seen among Irises. Strong roots 50c; clumps, 75c to \$1.00.

Choice Collection of Japanese Iris

These are all choice named varieties, and true to description. The Japanese names being so complicated, we offer them in colors instead of their original names. We offer only strong field grown plants.

DARK BLUE. Large size 50c; extra large size, 75c.

PURPLE. Large size, 50c; extra large size, 75c.

WHITE. Large size, 50c; extra large size, 75c.

Wagner's Extraordinary Iris Offer

"A Score of the Best Iris and a Few Over"

50 Iris, mixed colors, strong roots, \$2.50; large size, \$5.00; heavy clumps, \$10.00.

1000 Iris, mixed colors, strong roots, \$32.50; large size, \$70.00; heavy clumps, \$150.00.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price, Twelve plants at ten times the single rate price.

Wagner Park Double Peonies

Wagner Park Peonies are the most beautiful of all the Hardy Perennial plants, and should be in every garden, large or small, in bed borders, shrubberies or drives; in park, grass or woodland. They should, therefore, be planted near at hand for close enjoyment of their beauty, as well as in masses for distant color effect. Peonies attain a height of 2 to 3 feet.

ACHILLES. Light flesh pink. Strong roots, 75c; large size, \$1.00; clumps, \$2.00.

AGATHA. Brilliant violet rose. Tall, very fine. Strong roots, \$1.00.

AGIDA. Dark, rich red. Strong roots, 50c; large size, \$1.00.

AMERICAN BEAUTY. Deep pink. Strong roots, 50c; large size, 75c; clumps, \$1.00.

CHARLEMAGNE. Lilac white, slight blush centers. One of the best. Strong roots, 75c; large size, \$1.25; clumps, \$2.50.

CLARISSA. Rose pink. One of the finest flowering varieties we grow. Strong roots, 50c; large size, 75c; clumps, \$1.50.

COMPTE DE PARIS. Rose color with salmon center, a variety that will always give satisfaction. Strong roots, 50c; large size, 75c; clumps, \$1.50 each.

COUNTESS SARAH. Rose washed with white petaloides, silver pink like Chrysanthemums. Strong roots, \$1.00.

COURONNE DE OR. Snow white, yellow reflex. Very large stripes of carmine, extra fine. Strong roots, 75c.

DORTON'S COROS. Beautiful bright pink, a showy and free flowering variety and of a solid color. A very satisfactory peony. Strong roots, 50c; large size, 75c; clumps, \$1.50.

FORMOSA ROSEA. Guard petals light rose, petaloids of silver rose. Strong roots, \$1.00; large size, \$1.75.

GOLDEN HARVEST. Pale pink to peach blossom pink, white crown. Strong roots, 75c; large size, \$1.25; clumps, \$2.50.

GRANDIFLORA SUPERBA. Dark pink center light rose. Very showy. Strong roots, 75c; large size, \$1.25.

HERCARTIAN. Guard petals deep rose, with incurved petaloids of silvery rose. Strong roots, 75c; large size, \$1.25.

LADY BRAMWELL. Silvery rose; a very delicate variety and will thrive in most ordinary garden soil. Strong roots, 40c; large size, 75c; clumps, \$1.00.

LAMARTINE. Soft rose. Fragrant and free bloomer. Strong roots \$1.50.

LADY MURIEL. Pale pink, double. Beautiful variety. Strong roots, \$2.00.

L'EPERANCE. Rose pink, early, fragrant. Strong roots, 50c; large size, \$1.00.

LIBERTY. (Our own introduction) A variety of rather dwarf growth but compact habit with smaller foliage than most Peonies. The flowers are peculiarly formed having very broad outside petals which are of a delicate flesh pink color. The inner petals are narrow but closely formed and compact resembling a Chrysanthemum and of the same delicate pink shade. The variations in the width and shape of the petals make this variety one of distinction and merit. Strong roots, 75c; large size, \$1.50; clumps, \$3.00.

MME EMILE CALIE. One of the most tall and handsome and really beautiful of all Peonies. Delicate sea-shell pink without shadings. Extra fine. Strong roots, \$1.50.

MME. LEBON. Showy pink to aniline red. Very compact, strong growth, late flower. Strong roots, \$1.00.

MARIE LEMOINE. Delicate flesh; a very free flowering variety and one that may be depended upon. Strong roots, 50c; large size, \$1.00; clumps, \$2.00.

MARY ELIZABETH. Color fine blush white. Creamy white center. Strong roots, \$1.00; large size, \$1.75.

MEISSONIER. Medium size, bomb shape, developing a crown with age. Reddish-purple, uniform color, fragrant. Free bloomer, midseason. Strong roots, \$1.00; large size, \$2.00; clumps, \$3.50.

ODORATA. Guard petals deep rose, rosette center of lighter shade. Strong roots, 75c; large size, \$1.25.

REEVESII. Rosy flesh with red blotch on center petals; good size; blooms freely; long stems. Strong roots, \$1.50.

REINE DES FRANCOIS. Guard petals fleshy pink, petaloids creamy-white, with lavender tuit. Strong roots, \$1.00; large size, \$1.75.

SINGLE RED. Very showy. Strong roots, 75c.; large size, \$1.00 clumps, \$2.00.

WAGNER PARK. A beautiful clear pink, of fine form. Strong roots 75c; large size, \$1.25; clumps, \$2.50.

Our Three First Prize Peonies

These three varieties we consider the very best for general planting and cut flower purposes.

FIRST PRIZE PINK (Mid-season) Beautiful pink, tips shading into silver shade; almost identical to a La France rose. Blossoms are extra large, long stems. Strong roots, 50c; \$5.00 per dozen; large size, 75c, \$8.00 per dozen; extra heavy clumps, \$2.00.

FIRST PRIZE RED (Late) In color this variety resembles the American Beauty rose, but surpasses it on account of its large size and profusion of blooms. Strong roots, 50c each \$5.00 per dozen; large size, 75c, \$8.00 per dozen; extra heavy clumps, \$2.00.

FIRST PRIZE WHITE (Early) Large white with a very few pink markings in the center. Fine for general cultivation. Strong roots, 75c; large size, \$1.00; extra heavy clumps, \$3.00 each.

SPECIAL OFFER THREE PRIZE PEONIES, one of each color. Strong roots, \$1.50; large size, \$2.00; heavy clumps, \$6.00.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants of any one variety at ten times the single rate price.

Wagner's Hardy Phlox

Do not overlook these in your collection of plants. Certainly no perennial is more worthy of cultivation, more satisfactory in every situation or more effective either as individual plants or grouped in masses in the hardy borders. The plants begin to flower in early summer and the garden borders can be kept aflame with great flower cones from June until frost. Our small, thrifty plants will produce surprisingly good results.

BRIDESMAID. (M) Pure white, with large, crimson center; very free flowering. Thrifty plants, 15c; large size, 35c; clumps, 50c.

CHAMPS ELYSEE. Rich deep purplish crimson dwarf. Thrifty plants, 20c; large size, 35c; clumps, 50c.

HEROINE. (M) A variety producing flowers of odd color which is a light violet-blue. Thrifty plants, 15c; field grown plants, 30c; extra large, 50c.

ISABEL DUPUY. (M) Rose, red center. One of the best pinks; very bright, excellent for backgrounds. Thrifty plants, 15c; large size, 35c; clumps, 50c.

LOTHAIR. (M) A grand showy variety, producing bright red with carmine eye flowers in large trusses. Thrifty plants, 15c; field grown, 30c; extra large, 50c.

LA VAGUE. (D) Beautiful bright pink, early flowering, of dwarf habit. Fine for beds. Thrifty plants, 20c; field grown, 40c; extra large 75c.

MISS LINGARD. (M) A grand variety beginning to flower in early spring and continues throughout the season. An excellent variety in every way and may be planted in solid beds among the hardy border plants, or used as an edging plant. Color, white with light lilac center. Thrifty plants, 15c; larger 25c; clumps, 35c to 50c each.

MRS. JENKINS. (M) Absolutely snow-white. Medium sized flowers and truss. A very free bloomer. Thrifty plants, 15c; large size, 35c; clumps, 50c.

PINK BEAUTY. (M) Very fine pale pink of enormous size. Thrifty plants, 25c; large size, 35c; clumps, 50c.

RHYNSTORM. Fine for massing. Color a beautiful deep rose pink. Thrifty plants, 15c; field grown, 35c; extra large, 50c.

RICHARD WALLACE. (M) An exceptionally good grower. Flowers white with large carmine eye. Thrifty plants, 15c; Field grown, 30c; extra large, 50c.

SUNSET. (M) Beautiful deep pink, and will without doubt supercede all others of this color; excellent for massing or in solid beds. Thrifty plants, 20c; large size, 50c.

WAGNER PARK EVERBLOOMING. (D) Beautiful bright pink, one of the earliest to flower; if old flowers are kept cut off, it will

bloom more or less the entire season. Thrifty plants, 25c; large size, 50c; clumps, 75c.

WAGNER'S SPECIAL PHLOX No. 50. This collection of Phlox, consists of a choice lot of seedlings selected for their superior quality, color and size of flower clusters. They surpass many of the named varieties in size of flowers and truss. Color ranges from delicate flesh to bright pink, reds and other beautiful shades. Thrifty plants, 15c; large size, 25c; clumps, 30c to 50c each.

PHLOX SUBULATA (Moss or Mountain Pink) Early spring flowering with pretty moss-like evergreen foliage. Very dwarf.

ALBA. Pure white. Thrifty plants, 15c; large size, 25c; clumps, 35c.

ROSEA. Very free flowering; pinkish-purple, dark center. Thrifty plants 10c; large size, 20c; clumps, 35c.

Wagner Park Mallows

These Mallows are considered as the most marvelous of all hardy plants. Their flowers are of enormous size, often measuring eight to ten inches across, and are gorgeous in color. They bloom in the greatest profusion from July to October, and when in flower are a sight to behold. The plants are as hardy as an oak, and will grow in most any soil or situation. Do not fail to include some of these in your order. We can highly recommend even the mixed colors.

Prices of Mallows

CRIMSONTM MALLOW. Most beautiful flower of all. Nothing more gorgeous in color. Large plants, 75c; extra large, \$1.00; clumps, \$1.50 each.

REDTM AND ROSE SHADES. This lot includes all choice bright shades. Large size, 35c; \$3.50 per dozen; extra large, 50c; clumps, 75c.

PINK MALLOW. Most delicate shades of pink found among these. Large size, 20c, \$2.00 per dozen; extra large 35c, \$3.50 per dozen; clumps, 50c, \$5.00 per dozen.

WHITETM MALLOW. Center of blossoms a rich crimson, making a fine contrast. Large size, 35c; extra large, 50c; clumps, 75c.

CRIMSON MALLOW SEEDLINGS. These plants are grown from seed collected from the choicest crimson flowering plants, and most of these plants will prove to be beautiful crimson and red shades. Thrifty plants, 15c; \$1.50 per dozen; large size, 25c; to 35c each.

MALLOW, MIXED COLORS. This collection includes a great variety of colors from pure white and pink to red and scarlet shades. Every plant will bloom and give satisfaction. Thrifty plants, 10c, 75c per dozen, \$3.00 per hundred; large size, 20c, \$1.50 per dozen, \$10.00 per hundred; clumps, 35c, \$3.00 per dozen; extra heavy clumps, 50c, \$5.00 per dozen.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Mallow Blossoms

Other Hardy Perennials

PACHYSANDRA TERMINALIS. (D) May and June. White flowers. 35c to 50c.

PAPAYER ORIENTALE. (Poppy) Nothing can equal these in gorgeous effect. Rich brilliant colors. 20c; large size, 35c; clumps, 50c.

ORIENTALE MIXED. (M) This is as fine an assortment as selected seed can produce. Being propagated from seed will vary in color, frequently a dozen shades from as many plants. Plant them freely in your hardy borders. Thrifty plants, 10c; large size, 20c.

PARDANTHUS BLACKBERRY-LILY. (M) (Sinensis) with seeds resembling blackberries. Thrifty plants, 10c; large size, 20c; clumps, 35c.

PENTSTEMON BARBATUS TORREYI. (M) June to September. A very valuable late flowering variety with beautiful, bright red flowers; thrives best if planted in partly shaded places. Thrifty plants, 15c; larger 25c; clumps, 50c.

PUBESCENS. (D) June to August. Bright rosy purple flowers. Thrifty plants, 15c; larger, 35c; clumps, 50c.

SMALLI. (D) July to August. Rosy carmine flowers. Thrifty plants, 15c; larger, 35c; clumps, 50c.

PERIWINKLE HARDY MYRTLE. For covering bare ground where grass will not grow, it is indispensable. Evergreen foliage and blue flowers. Thrifty plants, 10c; larger, 20c; clumps, 35c.

PHYSOSTEGIA VIRGINICA. (M) July, Aug. Growth upright. Color, bright, soft pink. 15c; large size, 25c; clumps, 35c to 50c.

PINKS LORD LYON. (D) Fine showy, bright pink flowers on long, stiff stems. This variety will give entire satisfaction. Thrifty plants, 15c; larger, 25c; clumps, 50c.

WHITE RESERVE. (D) An excellent double white variety. Flowers are large on long stems and almost a continuous bloomer. Fine for edging other beds or in the hardy border. Thrifty plants, 15c; larger, 25c; clumps, 50c each.

PLATYCODON GRANDIFLORA. (Japanese Bell-flower) (M) June to October. A plant that is closely allied to the Campanula or Canterbury Bell, bearing continuously cupped star-shaped blue and white flowers. Thrifty plants, 20c; large size, 30c.

PLUMBAGO LARPENTAE. (Leadwort) (D) One of the most desirable hardy border and rock garden plants. Deep blue flowers during the summer and fall. Thrifty plants, 15c; large size, 25c; extra large, 50c.

PYRETHRUM HYBRIDUM. (D) (See illustration rear cover) This grand old-fashioned hardy perennial is easy to grow in any good garden soil where there is good drainage and full exposure to the sun. They prefer to be left undisturbed for two or three years, and if given an annual top dressing of well-rotted manure flower generously. Their main season of blooming is in June, but if the first crop of flower stems is removed as soon as finished, they will give a fair sprinkling of flowers during the summer and autumn months. The fine fern-like foliage of the plants is attractive at all times. Thrifty plants, 15c; larger, 25c; extra heavy clumps, 50c.

ULIGINOSUM. (Giant Daisy) (T) July to September. Large white daisy-like flowers. Thrifty plants, 20c; larger 35c; clumps, 50c.

RUDBECKIA GOLDEN GLOW. (T) August and September. Large, double, yellow Dahlia-like flowers. Thrifty plants, 10c; larger, 25c; clumps, 35c to 50c.

NEWMANI. (D) Dark orange-yellow flowers, with deep purple cone, borne on stiff, wiry stems 3 feet high; flowers from July to September. Thrifty plants, 10c; larger 35c; clumps, 50c.

PURPUREA. (M) An entirely distinct variety from all other perennials and thrive in any ordinary soil. They are so simple and easy to cultivate that we recommend them to anyone having a garden, whether large or small. The foliage being dense and of a good color, which is reddish-purple with large cone-shaped center in brown. Thrifty plants, 20c; large size, 35c; clumps, 50c to 75c.

SEDUM SPECTABILIS. (D) In formal work it is indispensable as it grows compact and bushy. Foliage is a beautiful light green. Flowers are rose colored. Thrifty plants, 15c; large size, 35c; clumps, 50c to 75c.

TRITOMA PEITZERI. (D) Large attractive flowers on long stems. Color, rich orange scarlet. Thrifty plants, 25c; larger plants, 35c; clumps, 50c to 75c.

HYBRIDA. (D) An exceptionally good grower with fine heavy foliage. Color, orange-scarlet. 25c

VERONICA MARITIMA. (D) September. Spikes of blue flowers. Large plants, 35c; clumps, 50c.

RUPESTRIS. (D) May. Deep blue flowers. Very fine. 35c; clumps, 50c.

VIOLET LA FRANCE. (D) Single flowers, light purple. Very fine. 20c each; clumps, 35c each.

YUCCA FILAMENTOSA. Hardy flowering evergreen plants of great beauty. This plant is so unusual and so strikingly effective, either when planted alone or in combination with other plants or evergreens, that it attracts attention on the humblest lawn, and is worthy of a place in the most pretentious garden. The foliage only attains a height of about 18 inches and is evergreen, making them especially desirable for edging. The flower stock often 3 to 5 feet high with as many as 200 creamy white blossoms.

PRICES OF OUR YUCCAS IN VARIOUS SIZES

Thrifty plants	\$.10 each	\$ 1.00 per doz.
Large size plants20 each	2.00 per doz.

Extra heavy plants50 each	5.00 per doz.
Specimen clumps	1.00 each	10.00 per doz.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Yuccas

Hardy Flowering Shrubs

Through the hot, dry period of summer, the coolness and rest of a fine shrub plantation is indescribably refreshing. The cultural requirements of ordinary shrubs are very simple. "Success with Shrubs," when the plants are vigorous Wagner Park stock, is easy, pleasurable, and sure. All Wagner Park Shrubs have been transplanted and are in robust health and condition.

Shrubs always have hard wood like the branches of a tree, and this wood does not die during the winter, except in a few of the more tender varieties which branches should be cut off as soon as the live branches begin to sprout in the spring.

We do not give height of shrubs listed as that is a secondary matter. The most essential is good roots with proper development of which we assure good values.

PRUNING SHRUBS—In pruning shrubs they should be allowed to take their natural perfect form, and when branches become old and weak they should be cut away from the outside, thus thinning out and allowing the new shoots to grow and take their place. The practice of shearing the ends of branches only without thinning out any of the inside branches cannot be too severely condemned, for it not only gives them an unnatural form in which there is little or no beauty, but also causes an increase in the number of small imperfect shoots on the ends of the branches, and resulting in a very imperfect growth that produces very few flowers. Pruning should be done right after the flowering season, especially with the early flowering sorts such as the Lilac (Syringas), Snowball (Viburnum), Cydonias Forsythia, (Golden Bell), etc. Varieties that flower on the new growth as Altheas, Hydrangeas, etc., are best pruned in the spring before new growth starts, this will insure good strong branches and large flowers. Dead branches and irregular or straggly growth may be cut away any time.

ABBREVIATIONS AND PLANTING INSTRUCTIONS—(I) (II) (III) immediately following the name of each variety indicate the height of plants when fully matured. (I) indicates varieties growing from 1 to 3 feet; plant from 1½ to 3 feet apart. (II) indicates height from 3 to 8 feet; plant these varieties from 3 to 5 feet apart. (III) indicates height from 8 to 12 feet; plant from 5 to 8 feet apart. There are no set rules as to distance for planting as some prefer heavy mass effect which require close planting, while more open effects require planting farther apart. We have given both extremes yet one need not follow these exactly.

SPECIAL NOTE—M. L. X. S. indicate size of stock offered. "M" indicates thrifty well rooted young plants. "L" indicates large size plants. "X" indicates extra large select plants. "S" indicates specimens.

General Instructions as to Planting, Pruning, etc., accompany each shipment.

Special Shrub Offer---20 Plants \$5.00

FREE IF DESIRED, WILL FURNISH PLAN SHOWING VARIOUS ARRANGEMENTS FOR PLANTING THIS COLLECTION

As an example of the superb values offered by the Wagner Park Nurseries, nothing could be more convincing than a collection of choice hardy flowering shrubs that will make a beautiful setting for your home for years to come. These are especially suitable for foundation planting, for grouping or a border planting.

ALTHEA (Rose of Sharon) Handsome late summer blooming shrubs, coming into bloom when few shrubs are in flower. As a hedge plant they are very valuable.

BICOLOR HYBRIDUS. Double white; fine large flower. M, 35c; L, 50c.

BOULE DE FEU. Large double violet-red flowers, very showy. M, 35c; L, 50c; X, 75c.

GRANDIFLORA. A very fine dark red variety. M, 35c; L, 50c; X, 75c.

JEANNE D'ARC. Double, pure white; one of the finest. M, 35c; L, 50c; X, 75c.

LADY STANLEY. Double bluish-white flowers; one of the best. L, 50c; X, 75c.

SPECIOSA PLENA. Fleshy-white. L, 50c; X, 75c.

TOTUS ALBUS. Large single pure white flowers. A superior variety. M, 35c; L, 50c; X, 75c.

MIXED COLORS. Altheas make a most beautiful hedge. Their flowers are large and their freedom to bloom, time of flowering, etc., render them most valuable. A hedge or planting of mixed colors is indeed a grand sight. Nice Thrifty plants, 10 to 15 inches high, 15c, \$1.50 per dozen; L, 35c, \$3.50 per dozen; X, 50c, \$5.00 per dozen.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

HARDY FLOWERING SHRUBS

(Continued)

ABELIA GRANDIFLORA. (Bush Arbutus) Magnificent flowering shrub of unusual beauty. The exquisite white flowers, faintly flushed with pink, almost cover the bush all summer. **Large size, 75c; extra large \$1.00.**

ALMOND (Pink flowering) (II) May. Very desirable. **L, \$1.00; X, \$1.50 to \$2.00 each.** (White flowering) (II) May. Very desirable. **L, \$1.00; X, \$1.50 to \$2.00.**

AMELANCHIER BOTRYANUM. (III) Beautiful shrub-like tree producing racemes of pure white flowers. **L, 50c; X, 75c.**

AMORPHA FRAGRANS. (I) A large, spreading bush with pinnate leaves and slender spikes of deep purple flowers; blooms in June. **L, 35c; X, 50c; S, 6 feet, \$1.50.**

BERBERIS THUNBERGII. (Japanese shrub) (I) Not only an invaluable shrub where a low, compact hedge is wanted, but fits in admirably with other shrubs in every planting. Has handsome foliage of tiny bright green oval leaves then turns most brilliant shades of orange and red in the fall. The slender, graceful branches are thickly lined with scarlet berries throughout the early winter. **Thrifty plants, 25c; \$2.50 per doz, \$15.00 per hundred; M, 35c, \$3.50 per dozen, \$25.00 per hundred; L, 50c, \$5.00 per dozen, \$35.00 per hundred; X, 75c to \$1.00 each.**

BUDDLEIA VARIABILIS (II) (Summer Lilac) (Butterfly Bush) This shrub of comparative recent introduction has grown into favor almost immediately. Is a semi-herbaceous plant, which we mean in some latitudes it will die down to the ground; while perfectly hardy we recommend covering the roots with manure, leaves or other material as winter approaches, as it will help to produce a heavy growth the next season. Blooms the first season, usually from June until frost; the blossoms are borne on long, graceful stems, which terminate in tapering panicles of lilac-colored flowers that are of miniature size, the flower head is frequently ten inches long. **Thrifty plants, 25c; M, 35c; L, 50c; X, 75c to \$1.00 each.**

CARYOPTERIS MASTACANSPUS. (Blue Spirea) (I) September. Fragrant blue Verbena-like flowers. **Thrifty plants, 25c; M, 35c; L, 50c.**

CALYCANTHUS FLORIDUS. (II) Double chocolate colored flowers. **L, 50c; X, 75c.**

CEPHALANTHUS OCCIDENTALIS. (III) July. Curious balls of blossoms on long stems. Fine for heavy background. **L, 50c; X, 75c.**

CORNUS (Dogwood) The name Dogwood first brings to mind the White Dogwood (Cornus Florida), with its large, butterfly-like blossoms in May. Species here described are shrubs of decided value in decorative planting, those with red bark filling a place occupied by no other.

ALTERNIFOLIA. (III) It has clusters of white flowers, dark blue fruits and its irregular whorled branches form flat-spreading tiers. **M, 30c; L, 40c; X, 60c; S, 7 to 8 ft., \$3.50 to \$5.00.**

SANGUINEA. (III) A shrub of spreading habit; purplish-red branches, flowers greenish white, followed by black berries. Desirable for massing. **M, 30c; L, 40c; X, 60c.**

SIBERICA. (III) This has deep crimson bark and should be used in large groups for its winter effect. It shows off best when there are a number of plants together. Abundant small white blossoms are borne in early summer, followed by white fruit. **M, 30c; L, 40c; X, 60c; S, 8 feet, \$5.00.**

STOLONIFERA AUREA. (III) Golden-barked Dogwood) Bright yellow bark in winter. Very effective when planted with red-barked varieties. **L, 50c; X, 60c.**

CYDONIA JAPONICA. (Fire Bush) (III) One of the earliest spring flowering shrubs, the fiery blossoms, pink to crimson, creating a grand display. **L, 50c; X, 75c.**

JAPONICA ALBA PLENA. (III) Semi-double, white. **L, 50c; X, 75c.**

DESMODIUM Penduliflorum. An exceedingly graceful shrub-like plant covered with purplish-red flowers in summer when few shrubs are in bloom. Strickingly beautiful. **M, 35c; L, 50c; X, 75c.**

DEUTZIA CANDIDISSIMA. (III) Strong growth. Double white flowers. **M, 30c; L, 40c; X, 60c.**

CRENATA. (III) Double rosette shape, white, tinged pink. **M, 30c; L, 40c; X, 60c; S, 6 feet, \$2.50.**

GRACILIS. (I) Forms a round, dense bush. Snow-white flowers of much beauty; good for shady places. **M, 35c; L, 50c; X, 75c.**

LEMOINEI. (II) Flower pure white. **M, 35c; L, 50c; X, 75c.**

PRIDE OF ROCHESTER. (III) Double white, tinged with pink.

SCABRA. (III) Flowers white, tinged pink. **M, 30c; L, 40c; X, 60c**

Spray of Forsythia Blossoms

DEUTZIA WATERERI. (II) Flowers delicate pink. A most beautiful variety. **M, 30c; L, 40c; X, 60c.**

WELLSI. (II) Double white flowers, one of the best. **M, 35c; L, 50c.**

ELEAGNUS ANGUSTIFOLIA. (Oleaster) (III) A large shrub, sometimes of tree form, with long, narrow, silvery-green foliage. The flowers are yellow, followed by yellow fruit. **M, 35c; L, 50c; X, 75c.**

FORSYTHIA (Golden Bell) The Golden Bells stand in a class by themselves. Early in April they are a wealth of golden-yellow. Foliage entirely healthy and growth vigorous.

FORTUNEI. (Fortunes Forsythia) (III) A spreading bush with dark shining foliage, which has a purplish tint in autumn. Deep yellow flowers. The best of the Forsythia. **M, 35c; L, 50c; X, 75c.**

INTERMEDIA. (III) A tall, upright growing form. Good for shrubbery border planting. Deep yellow flowers and fragrant. **M, 30c; L, 40c; X, 60c.**

VIRIDISSIMA. (III) (Dark Green Forsythia) Shrub-like in growth, dark, rich foliage, yellow flowers and a very profuse bloomer. **M, 35c; L, 50c; X, 60c.**

HYDRANGEA PANICULATA GRANDIFLORA. Undoubtedly the most popular variety and one of the showiest shrubs in cultivation. The flowers are almost all radiant and sterile, and are produced in mammoth clusters. When fully expanded the flowers are white, but in age assume tones of rose and bronze on the exposed sides. Severe pruning in early spring insures large trusses. **M, 35c; L, 50c; X, 75c to \$1.00.**

GRANDIFLORA ALBA. (II) Large clusters of white flowers. Nice young plants, 50c; larger, 75c; extra large, \$1.00.

HYDRANGEA, Tree Form. A very fine stock growth in tree form. \$2.00 to \$2.50 each.

HYPERICUM AUREUM. (II) Abundant yellow flowers all summer. Strong grower. **M, 35c; L, 50c; X, 75c.**

KERRIA JAPONICA. (II) Single yellow flowers. 75c to \$1.00 each.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Hydrangea Paniculata Grandiflora

HARDY FLOWERING SHRUBS

(Continued)

LONICERA (Bush Honeysuckle) These are tall shrubs of upright growth. Valuable for their profusion of white and pink flowers and their crops of berries. They are among the most attractive of our early blooming shrubs.

GRANDIFLORA ROSEA. (III) Pink blossoms. M, 35c; L, 50c; X, 75c.
LEDEBOURI. (II) May. Creamy, yellow flowers, fine. M, 35c; L, 50c; X, 75c.

MORROWI. (II) May. White flowers, dark green foliage, red fruit. M, 35c; L, 50c; X, 75c.

TARTARICA. (III) (Bush Honeysuckle) May. Pink flowers, orange-red berries. M, 35c; L, 50c; X, 75c.

TARTARICA ALBA. (White Tartarian Honeysuckle) (III) May. Has white flowers, bright berries. M, 35c; L, 50c; X, 75c.

PHILADELPHUS MOCK ORANGE. How deliciously fragrant are the spring blossoms of the Mock Orange! To many they bring pleasant thoughts of the coming flowers.

CORDIFOLIA. (II) Single white flowers; large foliage. M, 35c; L, 50c; X, 75c.

CORONARUS. (Sweet Mock Orange) (III) The real old-fashioned form, white blossoms, yellow stamens. M, 35c; L, 50c; X, 75c.

FALCONERI. (II) Graceful shrub, white flowers. M, 35c; L, 50c; X, 75c.

GRANDIFLORUS. (III) Most vigorous grower and produces unusually large flowers, which are pure white. M, 25c; L, 35c; X, 50c; S, \$1.00.

LEMOINEI ERECTA. (II) Creamy white, fragrant. L, 50c; X, 75c; S, 4 to 5 feet, \$1.00; 6 feet, \$2.00.

IVALIS. (II) An excellent variety in every way, good growth and free flowering. M, 35c; L, 50c; X, 75c and \$1.00.

SPECIOSA. (III) Showy white flowers. A tall grower and one which will give satisfaction wherever planted. M, 25c; L, 35c; X, 50c; S, \$1.00.

PRUNUS TRILOBA. (II) A Charming Shrub, double light pink blossoms before foliage appears. L, \$1.50; X, \$2.00 each.

RHAMNUS CATHARTICA. Well known hedge plant, valued for extreme hardiness and strong growth. M, 25c; L, 35c; X, 60c.

RHODOTYPHUS KERRIOIDES. (White Kerria) (II) A handsome shrub with good foliage and snow-white flowers the latter part of May, followed by black berries. A profuse bloomer. M, 50c; L, 75c; X, \$1.00.

RHUS CDIONANTHUS VIRGINICA. (White Fringe) (III) White flowers. \$2.00 to \$2.50 each.

GLABRA. (Smooth Sumac) (II) Leaves color brightly in autumn. Flowers followed by fruit. L, 35c; X, 50c.

TYPHIINA LACINIATA. (Fern-leaved Sumac) (III) Brilliant foliage crimson fruit. M, 35c; L, 50c; X, 75c.

ROSA RUGOSA. The hardiest of all roses. They are eminently suitable for rose hedges or to be used same as shrubs. M, 50c; L, 75c; X, \$1.00.

SAMBUCUS CANADENSIS. (White Elder) (III) Attractive flowers followed by clusters of purple berries. M, 25c; L, 35c; X, 50c.

NIGRA AUREA. (III) Beautiful foliage of yellowish color. M, 35c; L, 50c; X, 75c.

LACINIATA. (III) Very valuable on account of its deeply cut foliage. M, 35c; L, 50c; X, 75c.

SPIREAS This is one of the largest groups of flowering shrubs and it is rarely that a group is planted without including some of its widely differing forms.

Spray of Philadelphia

SPIREAS ANTHONY WATERER. (I) May to September. Heads of crimson flowers. M, 35c; L, 50c; X, 75c.

BILLIARDI. (L) A strong grower, panicles of bright pink flowers in July and August. L, 30c; X, 50c; S, 75c.

BUMALDA. (I) May to Sept. Rose colored flowers. M, 35c; L, 50c.

CALLOSA ALBA. Soft white form; blooms all summer. Dwarf. M, 35c; L, 50c; X, 75c.

CALLOSA FROEBELI. (I) June to September. Flowers dark, violet-red. M, 25c; L, 40c; X, 65c.

CALLOSA ROSEA. (II) Rose colored flowers. M, 35c; L, 50c.

FONTENAYII ROSEA. (II) June, July. Upright branches, pink flowers. M, 35c; L, 40c; X, 60c.

FONTENAYII ALBA. (II) White flowers. M, 35c; L, 50c; X, 75c.

OPULIFOLIA. (III) Strong grower, green foliage. White flowers. L, 35c; X, 50c.

OPULIFOLIA AUREA. (Golden Leaved) (III) Yellow tinged foliage, white flowers. M, 30c; L, 40c; X, 60c; 6 feet, 75c to \$1.00.

REEVESIANA. (II) May. Slightly drooping shrub covered in May with clusters of white flowers. M, 30c; L, 50c; X, 75c.

SALICIFOLIA ALBA. (II) June to September. Pure white flowers. M, 25c; L, 35c; X, 50c.

SEMPERFLORENS. (I) Red flowers in corymbs. L, 35c; X, 50c.

THUNBERGI. (I) Fluffy masses of white flowers, fine foliage. L, 50c; X, 75c.

VAN HOUTTEI. (II) The most beautiful of the Spiraeas. We recall no shrub that exceeds this in the graceful elm-like quality. The graceful branches, weighed down with a wealth of white blossoms, curved till they nearly touch the ground. It comes into bloom just before Decoration Day. M, 25c; L, 35c; X, 50c; to 75c Specimens, \$1.00.

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

HARDY FLOWERING SHRUBS

(Continued)

SYRINGA

LILAC (III) These shrubs are always popular. No matter how small the ground, everyone wants lilacs.

MME LEMOINE.
A fine large flowered single white variety. L, \$1.00
X, \$1.50. 

PRES. GREY
Large panicles of double blue flowers. One of the best. L, \$1.00;
X, \$1.50 to \$2.00

PERSIAN PURPLE. Foliage is small, growth is constant. Large spikes of flowers. L, \$1; X, \$1.50 to \$2.00.

PERSIAN WHITE
Same as above. L, \$1.00; X, \$1.50 to \$2.00.

SOUV. DE LUDWIG SPAETH. The flowers are single and in clusters very large, fine, and dark purplish-red in color. L, \$1.00; X, \$1.50 to \$2.00.

VULGARIS. (Old-fashioned lilac) The familiar species of all fine old gardens, with heart-shaped leaves and dense panicles of lilac flowers in May, still the most fragrant of any. M, 50c; L, 75c; X, \$1.00 to \$1.50.

VULGARIS ALBA. (Old-fashioned White) An old standard and one that is always popular. M, 50c; L, 75c; X, \$1.00 to \$1.50.

SYMPHORICARPUS RUBRA. (I) A graceful shrub with deep red berries clustered and crowded along its arching twigs. The branches take root, where they touch the ground and therefore are useful to hold steep banks and edge groups of tall shrubs. The only shrub to grow under large trees or in exceedingly dense shade and thrive. M, 20c; L, 35c; X, 50c.

RACEMOSUS. (II) Milk-white berries that contrast finely. M, 35c; L, 50c; X, 75c.

TAMARIX Attractive, tall-growing shrub with fine feathery foliage like that of the Junipers. Splendid shrub for seashore and general planting. Flowers profusely, and are usually a delicate pink color and excellent for cutting.

AFRICANA. (III) Tall-growing, irregular shrubs with feathery foliage and small, delicate pink flowers. M, 25c; L, 35c; X, 50c.

HISPIDA AESTIVALIS. (III) July. Pink flowers. Its neat growth and blue-green foliage is very ornamental. M, 35c; L, 50c; X, 75c.

INDICA. (III) Pink flowers. One of the best Tamarix. M, 25c; L, 35c; X, 50c.

ODESSANA. (III) Pink flowers in panicked racemes. M, 25c; L, 35c; X, 50c.

VIBURNUM An important group of shrubs. Members of the genus are conspicuous for the good qualities needed in landscape planting. They all have good healthy foliage.

OPULUS. (High Bush Cranberry) This handsome shrub has bright red fruits; are in some sections used as a substitute for the Cranberry. It has large, healthy leaves, and its free from insect attacks. M, 60c; L, 75c; X, \$1.00.

PLICATUM. (Japan Snowball) (III) Large balls of flowers white as snow. M, 75c; L, \$1.00 each.

LANTANA. (III) White flowers, clusters of bright red fruit, changing to black. M, 60c; L, 75c; X, \$1.00.

STERILIS. (Common Snowball) (II) Flowers white, borne in clusters. M, 50c; L, 75c; X, \$1.00.

VITEX. *Agnus-Castus.* (III) Grayish foliage and bears lilac-colored flowers in terminal racemes in late summer. M, 50c; L, 75c to \$1.00 each.

WEIGELAS Beautiful shrubs that bloom in June and July. The flowers are produced in so great profusion as to almost hide the foliage.

CANDIDA. (III) Flowers are pure white, borne all through the summer months. One of the most free blooming of all Weigelas. L, 75c; X, \$1.00.

DESBOUSI. (II) Deep rose flowers in profusion. M, 35c; L, 50c; X, 75c.

EVA RATHKE. A very profuse bloomer and continuous to produce its dark carmine-red flowers during the entire summer. M, 75c; L, \$1.00

NANA VARIEGATA. (I) May. Pink flowers and variegated green and yellow foliage. L, 75c; X, \$1.00.

ROSEA. The flowers are rose colored, are produced in such profusion as to completely cover the bush. Flowers in May and June. M, 35c; L, 50c; X, 75c to \$1.00.

Ornamental Hedge Plants

In producing a truly pleasing and attractive landscape effect the selection of a fence has always been a serious problem. Something is needed to outline the lawn clearly, but what to use is often a perplexing question. A hedge will beautify the plainest kind of grounds and adds immeasurably to the lawn with a fence that nature provides. The wooden or iron fence is clumsy and contrasts rudely, while the hedge blends beautifully with the green lawn and surroundings. Plant from 5 to 10 inches apart, depending on the compactness of hedge desired.

PRUNING AND CARE OF HEDGES—To secure a compact hedge and one of even growth, it is necessary, when the plants are first set out to prune back quite severely to an even height. This will encourage strong bottom growth, and makes the foundation of the good hedge.

ALTHEAS. PLANT FOR AUGUST AND SEPTEMBER FLOWERS.

One of the most showy and beautiful of shrubs, and especially desirable for hedges or flowering screen. The flowers are large and showy, ranging from white to pink, red and purple. **Nice thrifty plants 10 to 15 inches high, 15c each, \$1.50 per dozen, \$10.00 per 100; M, 25c, \$2.50 per dozen, \$15.00 per 100; L, 35c, \$3.50 per doz; X, 50c, \$5.00 per dozen.**

JAPAN BARBERRY (Berberis Thumbergii) HARDY EVERYWHERE

A Neatly Kept Hedge Gives That Finished Effect to Your Home
An ideal shrub and hedge plant, gracefully beautiful in summer, with its arching, thorny branches thickly covered with small, fine, rich green leaves, which change in the autumn to a unique fiery crimson. Branches are thickly covered with scarlet berries for early winter. **Thrifty plants, \$2.50 per dozen, \$15.00 per 100; larger size, \$3.50 per dozen, \$25.00 per 100; heavy plants, \$5.00 per dozen \$35.00 per 100.**

LIGUSTRUM (Privet) Amurense. Hardy. Glossy green foliage and of upright growth. Hardy in all localities. **Nice plants, \$2.50 per dozen, \$15.00 per 100; large size, \$3.50 per dozen, \$20.00 per 100; extra large size, \$5.00 per dozen, \$30.00 per 100.**

IBOTA. (Chinese Privet) An unusually good hedge plant, very hardy and produces fragrant flowers. **Nice plants, 18 to 24 inches, \$2.50 per dozen, \$15.00 per 100; large size, \$3.50 per dozen, \$17.50 per 100; extra large, \$4.00 per dozen, \$25.00 per 100.**

LIGUSTRUM IBOLIUM. (Privet) The new hedge privet. A cross between Ibota and Ovalifolium. This new hybrid possesses the attractive characteristics of California Privet with the hardiness of Ibota. It is vigorous growth, developing no constitutional weakness or susceptibility to blight or disease. It is upright in its habit, with glossy round foliage, and fills out even fuller at the bottom than does the California Privet. **Large plants, \$2.50 per dozen, \$15.00 per 100; extra large plants, \$3.50 per doz, \$20.00 per 100; extra heavy large size, \$5.00 per dozen, \$30.00 per 100.**

OVALIFOLIUM. (California Privet) The most popular of all. Foliage is a beautiful dark glossy green and almost evergreen. In the northern states it sometimes freezes to the ground. **Nice plants, \$1.50 per dozen, \$5.00 per 100; large size, \$2.00 per dozen, \$7.00 per 100; extra large size, \$2.50 per dozen, \$10.00 per 100.**

REGELIANUM. (Regels Privet) Absolutely hardy, and is sufficiently dense for hedges without trimming. Branches gracefully drooping. **Nice plants, \$3.50 per dozen, \$25.00 per 100; large size, \$5.00 per dozen, \$35.00 per 100; extra large size, \$7.50 per dozen, \$50.00 per 100.**

SINENSIS NANA. (Southern Evergreen Privet) The most satisfactory for hedges for southern states where the foliage remains on all winter. Leaves are small and a beautiful green color resembling Boxwood. **Nice plants, \$1.50 per dozen, \$7.50 per 100; large size, \$3.50 per dozen, \$15.00 per 100.**

Fruit Department

No home grounds are complete without at least a few fruit trees. Nothing is more beautiful in early spring than a fruit tree full of bloom, besides the great satisfaction derived from picking fine, ripe fruit from trees in your own yard. Our list of varieties is somewhat limited but all offered below are the very choicest and best for general planting. One dozen trees or plants of any single variety listed on this page may be ordered at ten times the single rate price.

APPLES—Early Varieties

EARLY HARVEST. Medium, pale yellow, tender, juicy.
RED ASTRACHAN. Large, beautiful deep crimson, good cooker.
YELLOW TRANSPARENT—Earliest and best; white, tender, juicy, sprightly, sub-acid.

APPLES—Late Varieties

BALDWIN—Large, bright red, crisp, juicy, rich.
BEN DAVIS—Large, handsome, striped, valuable.
BISMARCK—Handsome, yellow, sometimes shaded red; red cheek.
GOLDEN Russet—Medium, dull russet, crisp, juicy.
JONATHAN—Beautiful red, juicy, tender, excellent quality.
NORTHWESTERN GREENING—Hardy, yellow, rich, of good size, extra long keeper.
ROME BEAUTY—Large, yellow, shaded red; juicy, sub-acid.
WAGNER—Good size, deep red in the sun; flesh firm, sub-acid.
WHITE PIPPIN—Large, yellow, tender, sub-acid; good grower and keeper.
All varieties apples, 5 to 6 foot trees, \$1.00 each; extra select trees, \$1.25 each.

CRAB APPLES

HYSLOP—Large, deep crimson; one of most beautiful of Crabs.
TRANSCENDENT—Immensely productive, bright red, popular.
All varieties of Crab Apples, 4 to 5 foot trees, \$1.00 each; extra select trees, \$1.50 each.

CHERRIES

BALDWIN—Large, round, slightly sub-acid, sweet and rich.
EARLY RICHMOND—Medium, dark red, juicy, rich acid.
ENGLISH MORELLO—Fair size, bluish-red, rich acid, juicy.
MAY DUKE—Large, red, juicy, rich. Very fine.
MONTMORENCY—Large, red, productive, ten days later than Early Richmond.
NAPOLÉON—Large, pale yellow or red; firm, juicy, and sweet.
WINDSOR—Fruit large, remarkably firm, fine quality. Late.
All varieties Cherries, 5 to 6 foot trees, \$1.25 each; extra select trees, \$1.50 each.

GRAPES—2-Year No. 1 Stock

CONCORD—Popular black grape, succeeds wherever grown. 35c.
CATAWBA—Large, when fully ripe of a copper-red color. 35c.

DIAMOND—Leading early white grape, with rich yellow tinge. 50c.
EARLY OHIO—Very early grape, hardy and productive. 40c.
WILDER—Black bunch and berry, very large and round. 50c.
WORDEN—A splendid black. Vines vigorous, hardy and productive. 50c.

PEARS—Early Varieties

BARTLETT—Large, buttery, juicy, high-flavored, great bearer; popular.
CLAPP'S FAVORITE—Very large, yellow and dull red, with russet specks, melting, rich.

PEARS—Late Varieties

FLEMISH—Large juicy, rich; one of the hardiest.
KIEFFER—Its large size and handsome appearance makes it exceedingly profitable for market.
WORDEN-SECKEL—(New) Very fine and productive.
All varieties Pears, 5 to 7 ft trees, \$1.25; extra select trees, \$1.50.

PEACHES

CRAWFORD'S EARLY—A magnificent yellow peach of good quality.
ELBERTA—Large, yellow, red cheek; flesh yellow, firm, juicy.
LEMON FREE—Lemon-shaped and color, large size.
All varieties Peaches, 4 to 5 ft. trees, 75c; extra select trees, \$1.00.

PLUMS

ABUNDANCE—Fruit large, lemon yellow, heavy bloom; good quality.
BURBANK—The most profitable for the market.
DIAMOND—Large, dark purple; beautiful bloom.
LOMBARD—Medium, violet, red, juicy, good, hardy and productive.
All varieties Plums, 5 to 6 ft. trees, \$1.50; extra select trees, \$1.75.

BLACKBERRIES—2-Year No. 1 Stock

ELDORADO—Fine, large clusters. Very hardy.
RATHBUN—A very fine, large variety.
Both varieties, 25c; \$2.50 per dozen.

RASPBERRIES—2-Year No. 1 Stock

CUMBERLAND—The best black, very large.
GOLDEN QUEEN—The best yellowish-white.
KING—The best large red.

All varieties, 15c each; \$1.50 per dozen.

DEWBERRIES—2-Year No. 1 Stock

LUCRETIA—The largest and best variety. 15c each; \$1.50 per doz.

Clinging, Climbing, Twining Vines

There is something about the sweeping and twisting of Vines about the porch, veranda and the trellises about the house that appeals to everyone. There's beauty in these Vines that twist and creep and cover ugly places. Who can describe the fragrance of the Honeysuckles and Clematis, or the beauty of the Wisteria and Sweet Peas.

HARDY CLIMBING SWEET PEAS

Everybody Loves Them

This is one of the most desirable hardy plants, attractive both in flower and foliage, producing clusters of large flowers the entire summer. As a porch climber or for covering fences, it is invaluable. It is perfectly hardy and will endure our severest winters. Fine mixed colors, red, white and pink. Nice thrifty field grown plants, 15c; 4 for 50c, \$1.50 per dozen; larger size, 25c, 5 for \$1.00, \$2.25 per dozen; extra large field clumps, 50c, \$5.00 per dozen.

AMPELOPSIS VEITCHII. (Boston Ivy) The leaves of this beautiful climber changes in the fall to the most vivid autumnal tints. **Thrifty plants, 25c; larger plants, 35c; heavy plants, 50c to 75c.**

ENGELMANNI. A very desirable variety, small, dense foliage. Colors beautifully in fall. **Large size, 35c; extra heavy 50c.**

QUINQUEFOLIA. (Virginia Creeper or Woodbine) Foliage assumes brilliant shades of yellow, crimson and scarlet in the fall. **Large size, 35c; extra heavy, 50c.**

BIGNONIA GRANDIFLORA. (Trumpet Creeper) Useful for covering unsightly places, stumps, rockwork, etc. Flowers orange-red color. **Large plants, 50c; extra large, 75c.**

CELASTRUS SCANDENS. (Bitter Sweet) Yellow flowers in June, followed with bright orange fruit. **Large plants, 35c; extra large, 50 to 75c.**

CLEMATIS PANICULATA. Most desirable and most popular vines grown and may be used with satisfactory results wherever a vine is needed. Glossy green foliage all season and a mass of small white fragrant flowers in August and September. **Thrifty plants, 15c; large size, 35c; extra heavy, 50c; clumps, 75c to \$1.00 each.**

HENRYI. Large flowered. Creamy white. **\$1.50 each.**

JACKMANII. Large flowered intense violet. One of the popular varieties. **\$1.50 each.**

LONICERA BRACHYPODA AUREA. (Japan Golden-leaved Honeysuckle) Yellow and green leaves. Valuable for covering banks, bare places, etc. Flowers creamy-white. **Strong plants, 25c, \$2.50 per doz; large plants, 35c, \$3.50 per doz; extra large, 50c, \$5.00 per dozen.**

HALIANA. (Hall's Japan Honeysuckle) Blooms constantly. Flowers white changing to yellow; very fragrant. The best climber. **25c, \$2.50 per dozen; large size, 50c, \$5.00 per dozen; extra heavy, 75c.**

LYCIUM (Matrimony Vine) Numberless bright red berries in fall. **35c, \$3.50 per dozen; extra heavy, 50c.**

PUERARIA (Kudzu Vine) An extremely vigorous grower. Growing as much as 50 feet in a season. The rosy-purple flowers are borne in profusion in August, are pea-shaped, and produced in racemes. This is certainly a handsome porch decoration. **35c to 50c.**

WISTERIA SINENSIS. A most desirable vine which will thrive in almost any kind of soil or situation, and quite a rapid grower. Pendulous clusters of delicate violet-blue blossoms, richly perfumed. **35c; large size, 50c; extra heavy, 75c to \$1.00 each.**

ALBA. Of similar habit to Sinensis, with white flowers. **50c; extra heavy 75c to \$1.00 each.**

Evergreen Vines

ENGLISH IVY Dark, glossy green leaves and clings firmly to stone or brick walls. Thrives best in shady position and is hardy in all localities. **Nice young plants, 35c; large size, 50c to 75c.**

EUONYMUS RADICANS. Beautiful bright green foliage. **Nice young plants, 25c, \$2.50 per doz.; \$20.00 per 100; large size, 50c; extra large 75c.**

Tender Climbing Vines

COBAEA SCANDENS One of the most rapid of climbing plants. Bears beautiful, deep blue bell-shaped flowers. **25c, \$2.00 per dozen; larger, 35c.**

IPOMOEA GRANDIFLORA. (White Moon-flower) Satiny white flowers. **25c; large size, 35c.**

VINCA VARIEGATA. Elegant low-growing trailing vine, leaves widely bordered with creamy white; always bright and pretty; extra nice for pots, vases, baskets, window boxes and rockeries. **10c; large size, 15c; extra heavy plants, 25c to 35c each.**

PRICES IN QUANTITIES Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Ornamental Shade Trees

Judicious planting of ornamental trees and shrubs enhance the value of real estate more than an equal amount of money invested in any other way. Make preparation to plant in their permanent place at the earliest date possible after receiving them. If shipment should arrive in a frozen condition do not unpack, but put in a cool place, free from frost, until perfectly thawed when they may be unpacked and planted.

In planting make the hole wide enough so that when the tree is set, you can spread out the roots, always avoiding as much as possible twisting and crowding the roots. Work the soil in carefully about the roots, leaving no cavities or air spaces, and pack the soil firmly.

SPECIAL NOTE—In addition to the regular sizes listed, we can supply extra choice specimens which price varies according to variety, size, compactness and shape. \$5.00 to \$25.00 each.

ACER (Maple) One of the most sturdy and desirable lawn trees. Avenues planted with them grow in grandeur each year thereafter. Our assortment and stock is fine.

Acer—Maple

CAMPESTRE. Our stock comprises heavy bushes branched to the ground, fine for specimens and shrubbery background effect. Green foliage changing beautifully in fall. 4 to 5 ft., \$1.50 to \$2.00; 6 to 8 ft., \$2.50 to \$4.00 each.

DASYCARPUM. (Silver Maple) There is more foliage for the cost in this Maple than in any other tree. It is the best of the quick-growing trees for most soils and situations. 6 to 8 ft., \$1.50; 8 to 10 ft., \$3.50; 10 to 12 ft., \$3.50; fine specimens, \$10.00 to \$15.00 each.

NEGUNDO. (Ash-leaved Maple or Box Elder) A tall-growing tree. Retains its foliage until late, making it very desirable. 8 to 10 ft., \$1.50; 10 to 12 ft., \$2.00; specimens, \$5.00 to \$10.00 each.

PLATANOIDES. (Norway Maple) Large deep green leaves. One of the best for general planting. 8 to 10 ft., \$4.00; 10 to 12 ft., \$5.00; specimens, \$7.50 to \$15.00 each.

PSEUDO PLATANUS. (Sycamore-leaved Maple) Foliage deep green on upper surface and purplish-red underneath. 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00.

RUBRUM. (Red or Scarlet Maple) Foliage bright scarlet in autumn. 7 to 8 ft., \$3.00 to \$5.00 each.

SACCHARUM. (Sugar Maple) Used for shade on lawn or in park plantings. 8 to 10 ft., \$3.00; 10 to 12 ft., \$4.00; 12 to 14 ft., \$5.00 to \$7.50 each.

SCHWEDLERI. (Purple-leaved Maple) Leaves bright purplish crimson which changes to purplish-green. 8 to 10 ft., \$7.50; 10 to 12 ft., \$10.00 to \$15.00.

WEIRI LACINATUM. (Wier Cut-leaved Maple) A beautiful specimen tree, with delicately cut leaves and drooping habit. 8 to 10 ft., \$2.50; 10 to 12 ft., \$3.50; specimens, \$10.00 to \$25.00 each.

AESCULUS HIPPOCASTANUM. (Horse Chestnut) Double white flowered. 6 to 8 ft., \$3.00; 8 to 10 ft., \$4.00 to \$5.00.

ALNUS GLUTINOSA. (European Alder) Foliage roundish, wedge-shaped, waxy. Remarkably quick in growth. 8 to 10 ft., \$1.50; 10 to 12 ft., \$2.50; 12 to 14 ft., \$3.50 to \$5.00.

INCANA. (Gray colored Alder) 8 to 12 ft., specimens, \$2.00 to \$3.00.

ARALIA SPINOSA. (Hercules Club) A showy native, with broad, handsome cut leaves and huge clusters of small white flowers in July. Its winter effect is unique and handsome. 4 to 6 ft., \$1.00; 6 to 8 ft., \$2.00; 8 to 10 ft., \$3.00; 10 to 12 ft., \$4.00.

BEECH. See Fagus.

BETULA ALBA. (European White Birch) Of rapid growth, attractive foliage and beautiful, silvery-white bark. Droops a little. 5 to 6 ft., \$2.00 to \$2.50; 6 to 8 ft., \$3.00.

ALBA LACINIATA PENDULA. (Weeping Cut Leaf Birch) Very scarce. Prices on application.

PAPYRIFERA. (Paper or Canoe Birch) A native of America; forms a large tree; bark brilliant white, leaves large and handsome. 6 to 8 ft., \$2.50.

ORNAMENTAL SHADE TREES

(Continued)

CATALPA BUNGEI. (Unbrella Tree) A small species forming a tree clothed with a dense mass of large, heart shaped leaves; flourishes in all soils. It is grafted on stems from 6 to 8 feet high. It makes handsome standard trees; very dense, symmetrical head. 2 yr. heads, \$2.50 to \$3.50; specimens, \$4.00 to \$5.00 each.

SPECIOSA. One of the most rapid growing trees. Large panicles of white flowers and very ornamental. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50; 10 to 12 ft., \$3.00; extra heavy specimens \$4.00 to \$7.50.

CERASUS PADUS. (European Cherry) Pure white flowers followed by black fruit. Heavy specimens, 10 to 12 ft., \$2.50.

CERCIS (Judas Tree) (Redbud) Reddish-purple flowers. 4 to 5 ft., \$1.50; 6 to 8 ft., \$2.50 to \$3.00.

CRAB Flowering. See *Pyrus*.

CORNUS FLORIDA. (White Dogwood) These small trees are of inestimable value in landscaping. White flowers clothe the tree in early spring. 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.00 to \$2.50.

CYPRESS Deciduous, see *Taxodium*.

ELM. See *Ulmus*.

EUONYMUS EUROPAEUS. A small tree of vigorous growth. Foliage is broad and deep green, turning to crimson in the fall. The flowers are followed by orange-scarlet fruits. 3 to 4 ft., \$1.00; 5 to 6 ft., \$2.00 to \$2.50.

FAGUS (Beech) These trees because of their elegant habit and delicate tracery of foliage, adapt themselves to the most ornamental situation. They transplant well with a ball of earth (as we handle them) and may be used for any purpose.

ASPENIFOLIA HETEROPHYLLA. (Fern-leaved Beech) Leaves deeply divided. 3 to 6 ft., \$3.50 to \$5.00; 7 to 8 ft., specimens, \$6.00 to \$8.00.

RIVERSI. (Rivers Purple Beech) Leaves very dark purple. 4 to 6 ft., \$5.00; 6 to 8 ft., \$6.00 to \$10.00; specimens, \$12.00 to \$15.00 each.

SALVATICA. (European Beech) A compact, long-lived tree having dense, dark green foliage. 3 to 5 ft., \$3.00; 6 to 8 ft., \$5.00 to \$6.00.

FRAXINUS AMERICANA. (Ash) A rapid growing long-lived tree of fine proportions and a very desirable lawn tree. 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00; extra large specimens, \$5.00 to \$10.00.

EXCELSIOR. A lofty tree with handsome foliage. 6 to 8 ft., \$1.50 to \$2.00; 12 to 14 ft., \$3.50 to \$5.00.

GINKGO. See *Salisburia*.

GYMNOCLADUS CANADENSIS. (Kentucky Coffee Tree) Feathery foliage. 6 to 8 ft., \$1.00 to \$1.25; 10 to 12 ft., \$2.50 to \$3.50.

Fagus Riversi (Purple Beech)

JUGLANS SIEBOLDIANA. (Japanese Walnut) Perfectly hardy, very ornamental. 4 to 5 ft., \$2.00 to \$2.50; 6 to 8 ft., \$3.00 to \$4.00.

KOELREUTERIA PANICULATA. (Japanese Varnish Tree) Small attractive tree, covered with yellow flowers. 6 to 8 ft., \$2.50 to \$3.50.

LARIX EUROPAEA. (Larch) A conifer with deciduous needle-like foliage. 5 to 7 ft., \$3.00 to \$5.00.

LIQUIDAMBER (Sweet Gum) Glossy green foliage changing to bright red. (Shipped with ball of earth) 6 to 8 ft., \$3.00 to \$4.00 each; 8 to 10 ft., \$5.00 to \$7.50 each.

LIRIODENDRON (Tulip Tree) Foliage dark green; creamy yellow flowers. 6 to 8 ft., \$4.00 to \$6.00.

MAGNOLIA ACCUMINATA. Large growing tree with pale yellow flowers. 4 to 5 ft., \$1.50 to \$2.00; 6 to 8 ft., \$2.50 to \$3.00.

MAGNOLIA GLAUCA. (Sweet Bay) A handsome tree. Its leaves are glossy, laurel-like, almost evergreen. In June its pure white flower cups are lovely and fragrant. 3 to 4 ft., \$5.00 to \$7.50 each.

MAPLE. See *Acer*.

MORUS ALBA TARTARICA. (Russian Mulberry) A very hardy and low-growing type. 6 to 8 ft., \$2.00.

PENDULA. An umbrella shaped head with long, drooping branches. 2-yr heads, \$3.00 to \$5.00 each.

OAK. See *Quercus*.

PLATANUS OCCIDENTALIS. (American Plane) Broad-spreading round-topped, massive and picturesque. Very effective in winter when its branches show almost as white as birch and its mottled trunks of gray, green and brown is revealed. 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00 to \$4.00; specimens, \$5.00 to \$10.00 each.

ORIENTALIS. (Oriental Plane) (Sycamore) One of the oldest and best trees for street and avenue planting. A lofty, wide-spreading tree, with large leathery, clear-cut leaves that turn yellow in fall. 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00 to \$4.00; specimens, \$5.00 to \$7.50 each.

POPULUS ALBA BOLLEANA. Similar to the well known Lombardy. Its leaves are glossy green above, silvery beneath. 5 to 6 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$3.00; specimens, \$4.00 to \$6.00.

MONILIFERA. (Carolina Poplar) Unexcelled for quick growth and effect, its rapid growth giving an air of luxuriance in places where other trees appear starved. Showy and cheery from the constant movement of its glossy, silver-lined leaves, yet always casting a dense, cool shade. 4 to 5 ft., \$5.00; 6 to 8 ft., \$1.00; 10 to 12 ft., \$2.00; specimens, \$5.00 to \$7.50 each.

NIGRA, or ITALICA. (See front cover illustration of Wagner stock) (Lombardy, or Italian Poplar) Of obelisk form, growing rapidly to a tall spire. Forms striking lawn groups, and is much used for tall screens. Always makes a striking feature in any landscape. 4 to 6 ft., \$5.00; 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50; 10 to 12 ft., \$2.00; specimens, \$5.00 to \$7.50.

PRUNUS Pissardi. (Purple-leaved Plum) A distinct handsome little tree, covered with a mass of small, white flowers in spring; showy purple leaves that deepen in color. 3 to 4 ft., \$1.50 to \$2.00; 4 to 6 ft., \$3.00 to \$5.00.

Plantanus (Sycamore)

ORNAMENTAL SHADE TREES

(Continued)

PTELEA TRIFOLIATA. (Hop Tree) (D) A round-headed, loosely branched tree with numerous clusters of light green fruit pods. Prefers a shaded position and moist soil. 4 to 6 ft., \$1.00 to \$2.50.

PYRUS ANGUSTIFOLIA. (Bechtel Flowering Crab) Double rose-like flowers of a delicate pink color. 3 to 4 ft., \$2.50.

FLORIBUNDA. (Flowering Crab) A large shrub or small tree, with rose-red flowers borne in great profusion in May. The fruit is red and very small, on long stems. 3 to 4 ft., \$2.50.

QUERCUS COCCINEA. (Scarlet Oak) Foliage beautiful turning purplish crimson in autumn. 6 to 8 ft., \$2.50 to \$3.00; 8 to 10 ft., \$3.50 to \$4.00; 10 to 12 ft., \$5.00 to \$7.00; specimens, \$10.00.

PALUSTRIS. (Pin Oak) The most beautiful of all oaks and most satisfactory for avenue or general planting. 6 to 8 ft., \$1.50 to \$2.00; 8 to 10 ft., \$2.50 to \$3.00; 10 to 12 ft., \$3.50 to \$4.00; specimens, \$7.50 to \$10.00.

ROBUR. (English Oak) Massive spreading nature. 6 to 8 ft., \$3.00 to \$4.00; 8 to 10 ft., \$5.00 to \$6.00.

RUBRA. (Red Oak) Foliage changes to bronze-red in fall. 6 to 8 ft., \$3.00 to \$4.00; 8 to 10 ft., \$5.00 to \$7.00.

ROBINA HISPIDA. A beautiful small tree for ornamental planting. At intervals all season it has elegant clusters of pea-shaped flowers. Color rose pink. 3 to 4 ft., \$1.50 to \$2.00; 4 to 5 ft., \$3.00 to \$4.00.

SALISBURIA ADIANTIFOLIA. (Ginkgo or Maiden Hair Tree) Fern-like foliage resembling Maiden Hair Fern. 8 to 10 ft., \$3.00.

SALIX CAPREA. (Pussy Willows) This a cultivated French variety creating a sensation wherever shown. Strong stock, \$1.00 each; 3 for \$2.75 or 6 for \$5.00.

BABYLONICA. (Weeping) Branches drooping gracefully. 6 to 8 ft., \$1.00 to \$2.00; 8 to 10 ft., \$2.50 to \$3.00.

PENTANDRA. (Laurel-leaved Willow) Dark green, glossy leaves. 5½ to 6 ft., \$1.00 to \$1.50; 7 to 8 ft., \$2.00 to \$3.00.

VITELLINA AUREA. Highly effective with its golden bark and drooping branches. 6 to 8 ft., \$1.00 to \$1.50.

SORBUS AUCUPARIA. (European Mountain Ash) Orange-colored berries midsummer until frost. 6 to 8 ft., \$2.50 to \$3.50.

SOPHORA JAPONICA. (Japan Pagoda Tree) Small, shining leaves. Clusters of showy white flowers. 3 to 5 ft., \$1.50 to \$2.50.

JAPONICA PENDULA. (Weeping Sophora) Long, drooping branches. 5 to 6 ft., good heads, \$2.50 to \$3.50.

Ulmus (Elm)

The most satisfactory tree for general planting,
lawns, avenues, or anywhere

Quercus (Oak)

TAXODIUM DISTICHUM. (Deciduous Cypress) The famous Southern or Bald Cypress is perfectly hardy even in the North, and grows well on dry or wet soil. It is a most beautiful and stately tree, pyramidal in shape. 6 to 8 ft., \$5.00; 8 to 10 ft., \$8.00 to \$10.00. All dug with ball of earth.

TILIA AMERICANA. Splendid form, large stature. Rapid growing and hardy tree affording a dense shade. 6 to 8 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$4.00; heavy specimens, \$5.00 to \$10.00.

EUROPEAN. Fine symmetrical habit; has large, glossy, deep green leaves. Fine for lawn. A little more compact than the American. 6 to 8 ft., \$2.50 to \$3.00; 8 to 10 ft., \$3.50; heavy specimens, \$5.00 to \$10.00.

WILLOWS. See Salix.

ULMUS AMERICANA. (Elm) No finer tree grown. Good for avenue or suburban planting. Forms a vase-shaped tree, with irregularly shaped leaves. 6 to 8 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$3.50; 12 to 15 ft., \$4.00 to \$7.50; specimens, \$10.00 to \$25.00.

CAMPESTRIS. (English Elm) Desirable for lawn or landscape. 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$3.50; 12 to 15 ft., \$4.00 to \$7.50; specimens, \$10.00 to \$25.00 each.

LATIFOLIA. Large leaves; compact and upright in habit. 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$3.50.

PLUMOSA PYRAMIDALIS. An elegant, pyramidal-growing Elm. 10 to 12 ft., \$3.50 to \$5.00; specimens, \$6.00 to \$10.00.

SCABRA PENDULA. (Camperdown Weeping Elm) A picturesque form. 2-yr heads, \$5.00 to \$7.50; heavy specimens, \$15.00 to \$25.00 each.

Hardy Ornamental Evergreens---Conifers

Wagner Park Evergreens have been several times transplanted. They are shipped to you with ball of earth and an abundance of roots, carefully burlapped. From out of the thousands of specimens of all sizes and shapes that adorn the landscape at Wagner Park, there can easily be selected for any home, park or public ground. The prices are altogether moderate, however, subject to change and advances owing to scarcity of some varieties. We list only the choicest and most hardy varieties

SPECIAL NOTE—Our soil is especially adapted to digging our Evergreens with a ball of earth, leaving the roots undisturbed, thus assuring successful transplanting at almost any season of the year. For those who cannot personally visit Wagner Park and see the glorious profusion of foliage, the inexhaustible variety of color tones, the graduations of shades between the dark green of some varieties and the bluish tints of other species of evergreens, the service of our Landscape Artists will prove especially helpful. We can select trees and shrubs, conifers and deciduous plants that will answer all the utilitarian purposes of windbreaks, border planting, shade production, and screens for unsightly vistas, no less than those purely aesthetic considerations of garden, lawn and terrace adornment.

ABIES CONCOLOR. (Colorado Silver Fir) A beautiful and graceful evergreen with soft, silvery-green foliage. Very symmetrical in form. 1½ to 2 ft., \$5.00 to \$8.00.

JUNIPERUS GLAUCA. (Blue Virginia Cedar) Throughout the year the leaves are a rich silvery blue. Very handsome and effective. 1½ to 2 ft., \$5.00 to \$6.00; 2 to 3 ft., \$7.00 to \$8.00.

PFITZERIANA. Of upright spreading growth, grayish-green foliage. One of the hardiest varieties. Thrives anywhere. 1 to 1½ ft., \$5.00; 1½ to 2 ft., \$7.50 to \$8.50.

SABINA. (Sabin Juniper) Spreading form. Nice plants. 12 to 15 inches \$4.00; 1½ to 2 ft., \$6.00 to \$8.00.

STRICTA. A beautiful, compact growing variety with tapering outline which retains its color through the winter. 1 to 1½ ft., \$4.00; 1½ to 2 ft., \$6.00 to \$7.50.

VIRGINIANA. (Red Cedar) Is always popular and can be used ornamentally in a number of ways, thriving well and making a fine appearance in soil or situations where other trees will not grow. 2 to 3 ft., \$4.00; 3 to 4 ft., \$7.50; 4½ to 5 ft., \$10.00 to \$12.00 each.

PINUS AUSTRIACA. (Austrian Pine) A tall massive tree with spreading branches heavily plumed with long, stiff, dark green needles. A useful species along the coast, and grows equally well inland. Popular for grouping or as specimens. 2 to 3 ft., \$5.00; 3 to 4 ft., \$7.00 to \$10.00.

BANKSIANA. (Jack Pine) Strong grower and hardy. 3 to 4 ft., \$3.00; 6 to 8 ft., \$7.00; 8 to 10 ft., \$10.00 to \$15.00.

MUGHUS. (Mugho Pine) This unique alpine species forms a dark dome-shaped bush, broader than its height and sometimes almost prostrate. Suitable for lawn specimens or evergreen groups, terraces, rockeries and seaside plantings. 1 to 1½ ft., \$5.00; 1½ to 2 ft., \$5.00 to \$6.00; 1½ to 2 ft., \$7.50 to \$9.00.

SYLVESTRIS. (Scotch Pine) A Strong grower with spreading branches and short, stiff, bluish-green needles. Its rapid growth makes it suited for temporary effects, though it is by no means to be despised for permanent ones. Splendid for mass planting, screens, shelter belts, and seashore uses. 2 to 3 ft., \$5.00; 3 to 4 ft., \$6.00 to \$8.00.

PICEA ALBA. (White Spruce) One of the very best conifers, especially for cold climates. Compact, upright growing, long-lived retaining its branches to the ground, aromatic, drought-resisting; varies in color from light green to glaucous blue. 2 to 3 ft., \$5.00 to \$6.00; 3 to 4 ft., \$8.00 to \$10.00.

EXCELSA. (Norway Spruce) This, our common spruce, embraces more desirable features than any of the others. It is rapid growing, does well in moist soils and withstands the bleak and cold winds of winter. Nice plants, \$1.00; 2 to 3 ft., \$3.00; 4 to 5 ft., \$5.00 to \$7.50.

PUNGENS GLAUCA. (Colorado Blue Spruce) The rich bluish coloring of the foliage is a rare bestowal of Nature. It will withstand the coldest climate, is a vigorous grower, and will do well in any locality. For color effect nothing equals this beautiful variety. 2 to 3 ft., \$10.00 to \$12.00; 3 to 4 ft., \$15.00 to \$20.00 each.

PSEUDOTSUGA Douglasii. (Douglas Spruce) It is similar to the spruce and is a very desirable and beautiful tree for either collective or individual planting. It is a western tree of erect habit and growth. Hardy in the coldest place. 2 to 2½ ft., \$5.00; 2½ to 3 ft., \$6.00

HARDY ORNAMENTAL EVERGREENS

(Continued)

RETINISPORA PLUMOSA. Main stems erect but side shoots assume a plume-like arrangement. The branches are slender and pliable, imparting a feathery appearance. Delicate, glaucous foliage. 1 to 1½ ft., \$4.00 to \$5.00; 2 to 2½ ft., \$6.00 to \$8.00.

PLUMOSA AUREA. (Golden Japan Cypress) One of the few really golden evergreens. The color of the young growths contrasts strongly with the darker shades of the older foliage. Striking and useful in many ways. 1 to 1½ ft., \$4.00 to \$5.00; 2 to 2½ ft., \$6.00 to \$8.00.

THUYA ELLWANGERIANA. (Tom Thumb) In many respects it is similar to the Retinispora and seems to be the connecting link between Arbor-Vitae and that family. Entirely distinct and valuable for general planting, also most suitable for window boxes. 8 to 12 inches, \$1.00; 15 to 18 inches, \$2.50 to \$4.00; 1½ to 2 ft., \$5.00 to \$6.00.

GLOBOSA. (Golden Arbor Vitae) A low compact form with bright green foliage. 12 to 15 inches, \$3.00 to \$4.00; 1½ to 2 ft., \$5.00 to \$7.50.

LUTEA. (George Peabody) Is tall-growing of broad form with clear, lasting golden yellow foliage which in summer gilds the plant all over and changes to delicate green in winter. Of high value for contrasting in all plantings. 1½ to 2 ft., \$4.00 to \$6.00; 2 to 2½ ft., \$7.00 to \$10.00.

OCCIDENTALIS. (American Arbor-Vitae) Strong vigorous grower. Its upright slender growth makes it desirable for formal planting and for variety in grouping. Its ability to withstand shearing makes it unsurpassed for hedges. 1½ to 2 ft., \$2.00 to \$3.00; 2 to 3 ft., \$4.00 to \$5.00; 3 to 4 ft., \$6.00 to \$8.00; 4 to 5 ft., \$9.00 to \$10.00.

ORIENTALIS. (Biota) (Chinese Arbor-Vitae) An evergreen of exceptionally good growth and good foliage. Excellent for hedges owing to its easy culture. Attractive for foundation or other plantings owing to its upright growth and good color, being distinct from all other varieties. 1½ to 2 ft., \$2.00, \$20.00 per doz.; 2 to 3 ft., \$3.00 to \$4.00; 3 to 4 ft., \$5.00 to \$7.00; 4 to 5 ft., \$9.00 to \$10.00.

PYRAMIDALIS. (Pyramidal Arbor Vitae) Its compact slender column of dark green is ornamental as a lawn specimen for backgrounds and in groupings. 1½ to 2 ft., \$4.00 to \$5.00; 2 to 3 ft., \$5.00 to \$7.00; 3 to 4 ft., \$10.00 to \$15.00.

SIBIRICA. (Siberian Arbor-Vitae) Globular shape, handsome and hardy. 12 to 15 inches, \$3.00 to \$4.00; 1½ to 2 ft., \$6.00 to \$8.00.

TSUGA CANADENSIS. (Hemlock Spruce) A medium sized tree with genulose branches whose graceful character is in striking contrast to some of the formal conifers. This is a rapid grower and very hardy. 1½ to 2 ft., \$4.00 to \$5.00; 2 to 3 ft., \$6.00 to \$7.00.

EVERGREEN SHRUBS

HOW TO GROW RHODODENDRONS AND KALMIAS—Rhododendrons and Kalmias grow naturally in shady situations, are surface feeders, and this should be taken into consideration when preparing the place for the plants. A northern exposure should be chosen, and where there is shade much of the day. Soil should be a mixture of leaf-mould, swamp peat, muck or field sods, also sand. Mulch in summer with leaves or other material and keep plants at all times supplied with moisture. In winter the plants should be protected with straw or other covering, particularly where exposed to the sun. Winter sun on the frozen leaves often spoils the foliage of Rhododendrons and Kalmias.

KALMIA LATIFOLIA. (Mountain Laurel) One of the grandest of our native evergreen shrubs. Flowers are wheel-shaped and set in close corymbs on the ends of the stem, pure white to pink, and appear in May or June. Heavy plants, 15 to 20 in., \$3.50; extra heavy plants, 20 to 24 in., \$5.00 each.

MAHONIA AQUIFOLIA. The richness of the glossy leaves gives the Mahonia great popularity for ornamental planting. Yellow flowers followed by blue berries for winter decoration the upper leaves are bronzed to red in the winter. Nice plants, 75c; large size, \$1.00; extra large \$1.50 to \$2.00 each.

RHODODENDRON CATAWBIENSE. Of compact growth with dark green foliage and masses of rose-pink flowers in great clusters in June. Heavy plants, 15 to 20 in., \$5.00; extra heavy plants, 20 to 24 in., \$7.50 each.

MAXIMUM. Taller growing and has larger leaves than Catawbiense. Blossoms are white-tinged pink and appear in large trusses in July, being the latest of all Rhododendrons. Will stand more exposure than any other variety. Hardy plants, 18 to 24 in., \$5.00; extra heavy plants, 24 to 30 in., \$7.50 each.

Wagner Park Lily Cannas

THE FINEST STOCK POSSIBLE TO PRODUCE

Wagner Cannas are Remarkably Free Flowering and Attractive

Visitors are invariably enthused at the beauty and sizes of Wagner Park Cannas with wide, arching leaves and stiff stalks of flaming flowers growing like torches above their noble foliage. The effectiveness is not confined to only a few weeks display, but being exuberant in growth, a bed of Cannas soon become attractive after planting and each day thereafter adds to its beauty.

Cannas should not be planted out-of-doors until after danger of frost is over. They may be planted as late as June, but the earlier planted, the better results. The most practical way to care for the roots over winter is to take up the clumps after the first killing frost, leaving some earth adhering to the roots. Place them in a dry cellar where frost will not penetrate. Do not allow the roots to become too dry or tubers will wither, but care should be taken that they are not so moist as to allow mildewing. In spring the bulbs can be started in sand in the house, if kept moist, or can be planted in the open ground as soon as all danger of frost is over. Our stock is so handled that immediate results and effects may be obtained.

A Wagner Canna Bed 12 Feet Across For Only \$10

6 King Humbert for center. Next row, 15 The President. For edge, 24 Madam Crozy. For border, 50 Red Coleus. 95 Plants

Such an effect as above illustrated obtained with this collection.

DAVID HARUM. Medium height; dark bronze foliage. Strong grower and one of the finest blooming Cannas. Flowers of large size with well rounded petals. Color is a bright vermilion-scarlet, dotted with crimson spots. 20c, \$2.00 per dozen.

FIREFLAME. Medium height; beautiful green foliage. Deep crimson flowers. 25c, \$2.50 per dozen.

HUNGARIA. A magnificent pink Canna widely used for large, solid beds. The petals are large and waxy, made up into big, round, full trusses. Its color forcibly suggests the well known Paul Neyron Rose, and is unquestionable one of the most popular pink Cannas ever produced. 20c, \$2.00 per dozen.

INDIANA. Tall grower. Heavy compact green foliage. Flowers on long spikes of orange-scarlet color. 25c, \$2.50 per dozen.

KING HUMBERT. Medium height; bright orange-scarlet streaked with crimson. The foliage is bronze with brownish-green stripes, large, thick and leathery; finest foliage of all Cannas. 25c, \$2.50 per dozen.

YELLOW KING HUMBERT. A sport from the bronze leaved red flowering King Humbert. Flowers are yellow dotted orange-scarlet. The occasional reversion of a stalk of foliage and flowers to the typical King Humbert makes a bed of this variety very interesting. 25c, \$2.50 per dozen.

MME. CROZY. Dwarf grower. The popular golden-edged bright scarlet. Green foliage. 20c, \$2.00 per dozen.

QUEEN CHARLOTTE. Dwarf grower. Rich crimson-scarlet with wide gold border on every petal; a profuse bloomer; broad green leaves. 20c, \$2.00 per dozen.

WYOMING. Medium grower. A good strong grower with bronzy purple foliage. The flowers are orange-red color and in large clusters. Any good garden soil will produce a fine growth of this remarkable variety. This variety will make a great show for any lawn. 20c, \$2.00 per dozen.

THE PRESIDENT. The greatest red Canna, possessing every desirable quality. Of immense size, unsurpassed in vigor, penetrating color, and a free bloomer. 25c, \$2.50 per dozen.

DAHLIAS

Show, Decorative, Cactus, Pompon and Single Varieties

Within the last few years a wonderful revival of interest in Dahlias is noted, which has resulted in their now being very important rivals to all other bedding plants.

We recommend Dahlias to any one wanting attractive bedding plants and something that will also give liberal supply of fine cut flowers. They are also very effective planted among shrubs and perennials.

We supply some dormant roots for early shipping, and started plants later in season.

A. D. LIVONI. (Show Dahlia) color, a very light silvery pink, petals beautifully quilled. 30c, \$3.00 per doz.

CLIFFORD W. BURTON. (Decorative Dahlia) Perfect form and of the finest canary yellow. 25c, \$2.50 per doz.

COUNTESS OF LONSDALE. (Cactus) The finest flowering Dahlia in the collection. Color an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine-pink. 25c, \$2.50 per doz.

GRAND DUKE ALEXIS. (Decorative Dahlia) The color is white, tinged delicate pink. 30c, \$3.00 per doz.

J. H. JACKSON. (Cactus) Brilliant dark crimson maroon. 35c, \$3.50 per doz.

LYNDHURST. (Decorative) Brilliant cardinal-red. A fine cut flower. 35c, \$3.50 per dozen.

MARY D. HALLECK. (Show Dahlia) Large compact golden yellow flower, full to the center. 30c, \$3.00 per doz.

NYMPHAEAE. (Decorative) Like a pink and white water lily. 25c, \$2.50 per doz.

PRINCESS VICTORIA. (Show) Light yellow. 30c, \$3.00 per dozen.

SNOWCLAD. (Pompon) Flowers snowy white. A dwarf grower; very early. 20c, \$2.00 per dozen.

SNOWFLAKE. (Show Dahlia) The flowers are snow white, of perfect form, and full to center. 30c, \$3.00 per doz.

SUNBEAM. (Pompon) Deep carmine-red. 25c, \$2.50 per dozen.

SYLVIA. Soft, decorative, pleasing mauve-pink, gradually changing to white in center. 25c, \$2.50 per doz.

TWENTIETH CENTURY. (Single Dahlia) No orchid could be more delicate in color or yet richer in shading. It is pure white at the tips and gradually shading toward the center of the petals to delicate blush rose. A wonderful blending of colors. 35c, \$3.50 per dozen.

WILLIAM AGNEW. (Cactus) Intense glistening scarlet crimson; very large flowers. 25c, \$2.50 per dozen.

WHITE CACTUS. Petals are rolled up so that the edges overlay each other. The color is pure white. 30c, \$3.00 per dozen.

YELLOW DUKE. (Show) Large, rich yellow. 30c, \$3.00 per dozen.

SOME CHOICE BEDDING PLANTS

ANTIRRHINUM SNAPDRAGON. Popular plants for bedding and of special value for cutting. The stock we offer has been grown for a select strain. Any variety. Nice thrifty plants, 10c each, \$1.00 per dozen; larger size, 15c, \$1.50 per dozen.

Daphne. Soft rose-pink **Golden Queen.** Rich pure yellow
Firebrand. Rich, deep red, fine. **Mont Blanc.** Pure white flowers.

Mixed colors, 75c per dozen, \$5.00 per 100; larger size, \$1.00 per dozen, \$7.00 per 100.

Nothing equals Snapdragons for continuous summer flowers.

BEGONIA GRACILIS LUMINOSA. (Red) Strong and robust. The most free-flowering of all Begonia, always in bloom—spring, winter and autumn. The flowers, when first opening, are a bright cherry, changing to a clear coral-red. Its foliage is rich glossy green, often shaded deep bronze. Nice plants, 25c; large size, 50c.

COLEUS Are almost indispensable where beds of brilliant foliage are wanted. Also used for edging and ribbon beds.

BRILLIANT RED. 15c, \$1.25 per dozen, \$8.00 per 100; larger 20c, \$1.50 per dozen, \$10.00 per 100.

GOLDEN BEDDER. Fine yellow, clear and distinct. 15c, \$1.25 per doz., \$8.00 per 100; larger size, 20c, \$1.50 per doz, \$10.00 per 100.

FUCHSIAS Well known favorites for planting out in partially shaded positions during the summer or for early spring-flowering in the window or green-house.

BLACK PRINCE. Bright, waxy carmine petals and pink corolla. 15c, \$1.50 per dozen; larger, 25c to 35c each.

HYDRANGEAS Especially desirable for pot growing; but may also be planted in open ground but should be brought indoors for winter except in mild climates.

OTAKSA. The old time favorite and always popular. Large heads of light pink flowers. Nice thrifty plants, 25c, \$2.50 per dozen; larger size, 50c; extra size, 75c to \$1.00 each.

SALVIA BONFIRE. (Scarlet Sage) This is one of the finest of the showy summer flowering plants. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plants. 10c, \$1.00 per dozen, \$7.00 per 100; larger, 15c, \$1.50 per dozen, \$10.00 per 100.

TRADESCANTIA. (Wandering Jew) Beautiful trailing vines with thick, waxy, lance shaped foliage; very useful in baskets and window boxes. Nice plants, 10 to 15c; large size, 25c, \$250 per doz.

VERBENA, MAMMOTH FLOWERED. This choice strain has large flowers of very brilliant colors and large, distinct eyes. The plants are vigorous growing and free flowering. Mixed colors. 10c, 75c per dozen; larger 15c, \$1.50 per dozen; \$10.00 per 100.

GLADIOLI

Most Desirable of Summer Flowers for Cutting

Gladioli are exceedingly beautiful and their easy culture makes them one of the most popular flowers for general planting. The bulbs we offer are all of blooming size. Where planted in masses or among perennials or in the shrubbery border they brighten the whole of the planting during their season of bloom which is during August and September when few hardy plants or shrubs flower.

The demand for Gladioli has become so great that we are now devoting a large acreage to their culture. The varieties we grow constitute the very finest that can be produced. Our stock has been carefully selected, the markings and size of flower being the first consideration. This enables us to send out collections which consist of the very choicest varieties in their particular color. The bulbs we offer are strong, vigorous growing, and the flowers are very large, of perfect form. The combinations of the markings are almost endless, and such as will be found in few other collections sent out. A succession of bloom may be had from July to October by planting at intervals from April to June.

In the fall before frost, the bulbs should be taken up, dried and placed out of reach of frost, for planting again the following spring.

AMERICA. One of the greatest favorites. The color an exquisite shade of delicate pink. \$1.00 per doz, \$7.00 per 100; select bulbs, 15c, \$1.50 per doz, \$10.00 per 100.

AUGUSTA. Pure white in color, with blue anthers. It produces long, straight spikes, often with several branches. \$1.00 per dozen, \$7.00 per 100; select bulbs, \$1.50 per dozen, \$10.00 per 100.

INDEPENDENCE. Large and very striking flower. Instead of being crimson as has been described, is in reality a most beautiful coral pink overlaid with a scarlet sheen—a most wonderful, showy flower. It is exceptional for cutting owing to its lasting qualities. If cut when the first and second buds open, will last a whole week if kept in water. 75c per doz., \$5.00 per 100; large select bulbs, \$1.00 per dozen, \$7.00 per 100.

MRS. FRANCIS KING. Large scarlet flowers of graceful form, borne on a spike that is tall and straight. It is one of the most popular varieties. Excellent for cutting. \$1.00 per doz, \$6.00 per 100; select bulbs, 15c, \$1.50 per dozen, \$10.00 per 100.

NIAGARA. Cream and yellow; throat splashed carmine. \$1.25 per dozen, \$8.00 per 100.

PEACE. Flowers almost snow white with a delicate lilac festuring on the lower petals. \$1.50 per dozen, \$10.00 per 100.

GLADIOLI 20th CENTURY. Our own introduction. A grand novelty; a strong grower and very free bloomer. The color is very difficult to describe, being a combination of crimson and deep maroon. Very fine, large flowers and showy. 40c each, three for \$1.00; select bulbs, 50c each.

FIRST PRIZE PINK. One of the finest varieties for cutting ever set out; color a beautiful bright pink and very free flowering. Growth and habit perfect. 10c, 75c per doz., \$5.00 per 100; select bulbs, 20c, \$1.00 per doz., \$7.00 per 100.

FIRST PRIZE RED. The best and most effective scarlet for massing. 15c, \$1.00 per doz, \$10.00 per 100; select bulbs, 20 c, \$2.00 per dozen.

FIRST PRIZE WHITE. A lovely and useful white variety. \$1.00 per dozen, \$7.00 per 100; select bulbs, 15c, \$1.50 per dozen, \$10.00 per 100.

MIXED COLORS. This strain affords an unusually fine range of colors. All are of the large flowering kinds and among them you will find the most beautiful shades. Plant them in quantities in the hardy border or most anywhere and you will get results. Flowering size, 50c per doz., \$2.50 per 100; extra select bulbs, 10c, \$1.00 per dozen, \$5.00 per 100.

GERANIUMS---Choice Bedding Plants

Geraniums are the best known and most extensively grown of all bedding plants. Much of this is because of their easy culture, freedom of bloom and showy clusters of flowers.

The following collection of Geraniums has been carefully selected as the very best for summer blooming. All have been thoroughly tested by us and we can recommend every one to give satisfaction and wealth of beautiful blossoms this season.

BEAUTE POITEVINE. A beautiful salmon-pink. 10c, \$1.00 per doz; larger size, 15c, \$1.50 per doz; heavy plants, 25c, \$2.50 per doz.

BRUANT. Old favorite. One of the best and most brilliant scarlet varieties. 10c, \$1.00 per doz.; larger size, 15c, \$1.50 per doz.; heavy plants, 25c, \$2.50 per dozen.

JEAN VIAUD. Beautiful shade of bright pink. 15c, \$1.50 per doz.; larger, 20c, \$2.00 per doz.; extra heavy plants, 30c, \$3.00 per doz.

LA FAVORITE. Pure, snowy-white. 10c, \$1.00 per doz.; larger size, 15c, \$1.50 per doz.; heavy plants, 30c, \$3.00 per dozen.

MRS E. G. HILL. Bright salmon, with a light shading at center. 15c, \$1.50 per doz.; larger, 20c, \$2.00 per doz.; heavy plants, 30c, \$3.00 per dozen.

S. A. NUTT. Rich dark crimson. Close, compact habit. 10c, \$1.00 per doz.; larger, 15c, \$1.50 per doz.; heavy plants, 25c, \$2.50 per doz.

VICTORY. (New) Our own introduction. A strong tall growing variety producing extra long stiff stems and large single carmine-red flowers. 25c, \$2.50 per doz.; larger size, 35c; heavy plants, 50c.

Desirable Pot Plants for House, Veranda and Lawn

The same evolution has taken place in flowers for the house and veranda as in furniture and other things to complete the decorations of the home of today.

ASPARAGUS PLUMOSUS NANUS. A beautiful plant with bright green, graceful arched foliage. An excellent pot plant. Nice plants, 25c; larger size, 50c.

SPRENGERI. Especially useful as a pot plant or for planting in ferneries or suspended baskets. Nice plants, 15c; larger size, 20c; heavy bushy plants, 50c.

FERNS BOSTON FERN. The most popular of all Ferns. The leaves are long and slender, drooping gracefully. We know of no better all-round decoration plant for all purposes. Young plants, 20c; larger plants, 35c to 50c; specimens, 75c to \$1.00.

ROOSEVELT FERN. Resembles the world-famous Boston Fern, but produces twice as many wide, drooping fronds, and are beautifully undulated, giving a pronounced wavy effect. Nice plants, 35c; larger size, 50 c to \$1.00 each.

PALMS KENTIA BELMOREANA. The hardiest, and will withstand the dry atmosphere of the house better than any other variety. Fine healthy growing plants. 8 to 10 inches high, 50c; 10 to 12 inches, 75c; 12 to 15 inches, \$1.00 each.

ARECA LUTESCENS. Most graceful and beautiful in cultivation. Bright green foliage, golden yellow stems. Nice thrifty plants, 10 to 12 inches high, 50c; 15 to 18 inches high, \$1.00 each.

SMALL FERNS FOR FERN DISHES

Nothing adds greater cheer to the home than growing plants. The use of ferneries as ornaments for the dinner table is very general. We can furnish at all times some fine, healthy plants of assorted varieties. 10c each, \$1.00 per dozen.

Boston Fern

Everblooming Carnations

Large Flowered

The following list embraces the best of the standard and well-tried varieties. Good results will be obtained from these plants out of doors, especially so in the Southern States, where they are hardy, while in the North they require protection.

LADDIE. A new variety of extreme size, 3½ to 4½ inches in diameter; color a warm rosy salmon-pink. Very free flowering and satisfactory. 20c each; \$2.00 per dozen.

MATCHLESS. A large, pure white, long stemmed and free-blooming. The petals are attractively fringed and the perfume delightful. 20c, \$2.00 per dozen.

RED MATCHLESS. Among the newer red carnation, there is no more satisfactory and pleasing kind than this. 20c, \$2.00 per dozen.

MRS. C. W. WARD. One of the very good deep pink sorts, of attractive size and form, very free blooming and strongly scented. 20c, \$2.00 per dozen.

For sprinkling wash, is worth its weight in gold.

Sheep Manure, Pulverized

One of the most generally used of animal manures. Unequalled for general use in growing flowers. Apply 1000 pounds per acre. 2 lbs., 20c; 5 lbs., 35c; 10 lbs., 65c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50; 500 lbs., \$16.50; 1000 lbs., \$30.00; ton \$55.00.

The insistent demand for plant foods has grown so, we have decided to offer our trade **Plant Marvel**. This product has the highest official approval. It has been tested on varied plant life. We unhesitatingly recommend **Plant Marvel** to our patrons—whether it be to the grower of a few plants, or to the largest estate. Directions for using accompany each shipment.

Plant Marvel (Formula "A"), is guaranteed to contain 61.30 per cent of plant foods—all water-soluble. Its 15.30 per cent of ammonia grows wondrous foliage. Its 14.50 per cent of potash gives plants health, pep and beauty. Its 31.50 per cent of phosphoric acid insures prolific bloom, and for all garden and truck crops timely maturity.

Use **PLANT MARVEL** and you will enjoy house plants and flowers of thrilling beauty. Your garden will feed your table—you will have earlier, more tender, succulent crisp, vegetables. You will have early, delicious fruits. Your waste spots will become a Fairyland—you will enjoy gorgeous roses; rampant climbing vines; thrifty shrubs and hedges; beautiful ornamental and shade trees; velvety lawns; dense, close-knit springy golf greens.

For best results on house plants and flowers and all limited areas of plant life, use Formula "A". No trouble! No worry! No digging, no damage to the most delicate roots. You "feed as you water." Price: Packed in 25c, 60c and \$1.00 containers. The \$1.00 size is most economical—feeds 20 potted plants for 36 weeks; transforms 150 square feet of flower-bed into a riot of bright and cheerful colors; etc. Attractive bulk prices on Formula "A" to large users, on application.

READ THIS GUARANTEE. Order a package of **PLANT MARVEL** (Formula "A") TODAY. If Formula "A" doesn't show more delightful, amazing and **BETTER** results, go farther and prove more economical than any other plant food, The Wagner Park Nursery Company will gladly refund your money.

Use **PLANT MARVEL** (Formula "B") on all larger areas of garden and truck, small fruits, etc.—where it is not practical to "Feed as you water." Only \$1.00 for a 5-pound sack. By simply adding 6 quarts of soil you have 20 pounds of high grade plant food—enough to feed 1000 square feet of vegetables, etc.

Use **PLANT MARVEL** (Formula "C") on larger areas of lawn, shrubs, hedges, fruit, shade and ornamental trees, etc. Only \$1.00 for a 5 pound sack—enough to treat 1500 square feet of lawn, etc.

PLANT MARVEL is approved by your State University, and every other good authority.

WAGNER'S LAWN GRASS SEED

HOW TO MAKE A LAWN—All good gardeners now use seed for the making of a good lawn in preference to turf or sod. The preparation of the ground is an important feature and the best soil is a medium texture, neither heavy nor exceedingly light; the surface should be thoroughly pulverized and level. Remove all stones, sticks, sod, etc., harrow or rake it fine and roll it firm. It is impossible to get the soil too fine to receive the seed. Sow the best seed obtainable, it is always cheapest in the end. It is best to sow seed liberally, not only to produce a lawn quickly, but because the best lawn seed produces fine-leaved grasses, which should take entire possession of the ground at once, thus choking out and preventing the development of any weed seeds, which are apt to be in all soils. Distribute seed evenly, going both ways across the plot. After sowing, cover the seed by raking lightly; then roll the ground. When the grass has become well rooted, use lawn mower for cutting it, and keep mower sharp, as if dull it will pull and injure the grass, besides causing the lawn to have an uneven appearance. Never allow grass to become so high that the mower will take off the first joint, as this is an injury. Mow as often as necessary; in growing weather at least once a week, let the short clippings remain on the lawn, as they wither and dry and form a protection to the roots. When the clippings are long, they should be raked off, for besides being unsightly, they are injurious. When the weather is dry and hot, avoid cutting too close.

QUANTITY OF LAWN GRASS SEED USUALLY REQUIRED IN MAKING A NEW LAWN

10 x 25 feet requires.....1 pound	40 x 50 feet requires.....8 pounds	50 x 100 feet requires.....16 pounds
25 x 50 feet requires.....5 pound	40 x 60 feet requires.....10 pounds	50 x 150 feet requires.....24 pounds

FOR RENEWING OLD LAWNS—Use about one-half the quantity given above
"WAGNER PARK" GRASS SEED—A special mixture which we prepare. Prices: 60c per pound; 5 pounds for \$2.50; bushel (20 pounds) for \$9.00.

"PREMIUM" GRASS SEED—This mixture while not quite equal in quality to "Wagner Park" variety, is a good clean mixture and an excellent lawn may be produced with it. Price: 50c per pound; 5 pounds \$2.25; bushel (16 pounds) \$6.50.

"SHADY LAWN" GRASS SEED—Fine for shady places and where other grasses will not grow. 60c per pound; 5 pounds, \$2.50; bushel (16 pounds) \$7.00.

KENTUCKY BLUE GRASS SEED—We offer purest seed obtainable. 60c per pound; 5 pounds, \$2.75; bushel (14 pounds) \$7.00. Prices of seed for Golf Grounds quoted on application.

WAGNER LANDSCAPE SERVICE

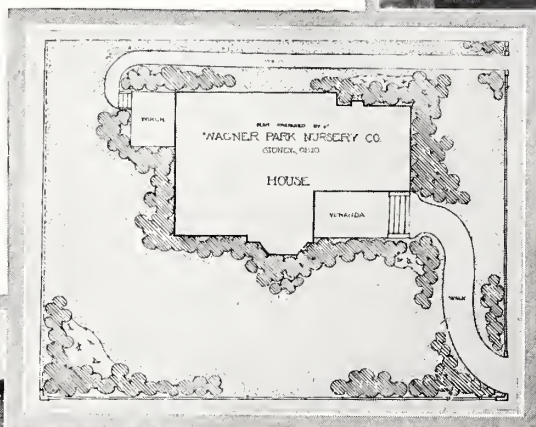

makes possible *immediate* effects.

WAGNER LANDSCAPE SERVICE is for the purpose of planning layouts and supervising the planting of all private and public grounds, no matter how elaborate or simple they may be. Our experts are fully experienced in every kind of work, and they bring to your work a large measure of successful experience.

However, we realize that a great number of people who will wish to purchase from this catalogue will desire a certain amount of help in planning their grounds, yet will hesitate in employing the service of a landscape gardening organization.

And for the special benefit of these customers we have, for the past several years, been offering for a fee of only \$2.00, a plan for your grounds—giving you a garden that will bloom from early spring till late in the fall.

You merely send us a layout of your grounds as they are today, showing walks, drives, buildings with dimensions, trees, or plantings (if any) and attach any other information that may be essential, such as slopes, photos, etc., and all measurements.

This sketch will then receive the personal attention of

Janet Brown

who is one of the most capable designers of home gardens in the country, a young woman Landscape Artist who has been engaged in this work with us for years.

She knows how to secure original ideas of design, and every feature will harmonize perfectly with the whole scheme, giving you a delightful effect throughout the entire year.

She prepares for you a complete plan and everything is shown on a new layout which she furnishes to guide you in your planting.

You also receive a coupon good for \$2.00 (the amount you pay for this service) which will be credited against the purchase price on an order amounting to \$20.00 or more.

In reality we do not charge for the sketch prepared by Miss Brown. We merely utilize the coupon idea to prevent being asked to give this valuable service to those who may have no intention of using plans or buying plants. Obviously, we could offer such a service only to our own customers. You'll be delighted if you try this service. The above is our Service No. 2; see inside rear cover.

We Design and Plant Large Public and Private Grounds of all Kinds

Our professional landscape men go everywhere to plan and plant Home Grounds, Parks, Universities, Schools, Factory Sanitariums, Hotel, and grounds of other large institutions.

This is our Service No. 4—For further details of this Service see inside rear cover page.

PLEASE USE BLANK FORM WHEN SENDING SKETCH OF GROUNDS, AND ANSWER QUESTIONS.

THE WAGNER PARK NURSERY COMPANY, SIDNEY, OHIO, U. S. A.

THE WAGNER PARK NURSERY CO., Sidney, Ohio.

Gentlemen: On other side of this sheet is a rough sketch of the grounds I wish to improve, with measurements, etc. I shall be pleased to receive a planting plan from you as per your Service offered in Catalogue. I enclose \$.....for which amount you are to send me a coupon good for the amount and which is to be credited on an order for plants amounting to \$.....or more.

Name.....

Street..... Town..... State.....

Suggestions are always a help to us in preparing a plan that will meet the local conditions and individual tastes of every person, so kindly answer the following questions that are of particular interest to you.

Do you prefer natural effects?.....

Do you prefer formal effects?.....

Do you prefer we use our own judgment?.....

Do you want us to locate walks? (If so, show all entrances to buildings, etc.).....

Do you want a driveway? (If so, show where you prefer it.).....

Do you want any tender plants?.....

Do you prefer all hardy plants?.....

Do you like a lot of shrubbery?.....

Do you want a rose bed?.....

Do you want any hedges? Where preferred?.....

Do you want a formal flower garden?.....

Do you want an Arbor or Pergola?.....

Do you want us to locate trees? (If any on grounds, show their location on sketch.).....

Do you want any fruit trees?.....

Do you want any street or avenue trees? (If so, mark space for same.).....

Do you want any evergreens?.....

Do you want any particular kind of trees? (Name).....

Do you want a vegetable garden? (If so, show where you prefer it.).....

When do you contemplate planting, this Season, or sometime later?.....

We receive many plans during our greatest rush that are not used until the following season and if we were advised to the effect that we may prepare them later after our rush is over it would not only accommodate us but our landscape department could then give more time to each and every plan and yet have them completed when ready to use them.

What is the limit you wish to expend for flowers?.....

This last question is a very important one, owing to many having quite large lawns, yet they do not desire to expend any great amount for flowers. If we know about the amount you wish to expend for flowers, we will arrange the plantings accordingly and you will receive a plan that will be practical for your grounds. These are not stock plans, but worked out individually and for each particular place, and in a careful manner that the very best and most artistic effects may be obtained.

REMARKS

USE THIS SHEET FOR MAKING YOUR SKETCH WHEN SENDING FOR PLAN

And Do Not Overlook Giving All Measurements and Dimensions of Buildings, Also Location of All the Trees on Grounds that are Permanent and Approximate Size or Kind of Trees. For Other Information Regarding Landscape Service and Planting Plans, See Catalogue.

NOTE—The sketch need not be drawn to scale, but should give the principal dimensions of buildings, distance from street and lot lines, also direction the house faces—North, East, South or West—and the location of entrances, dimensions of buildings, and windows in foundation, etc.; also location of walks, drives, if any trees and shrubbery (please name) or other permanent things that are not to be removed. Also location of all entrances to lot and buildings, any objectionable views to be retained, and terraces, or grades of any importance. Unless we have this information it will be impossible to prepare a plan that will be practical.

PLEASE DO NOT OVERLOOK ANSWERING QUESTIONS ON OTHER SIDE OF THIS SHEET

Scope of Wagner Landscape Service

In the Wagner Landscape Service there are really four departments and each has its distinctive service. These in their order are as follows:

Service No. 1

For the lover of flowers, who is buying from Wagner Park Nurseries a small lot of plants for a foundation planting, a border bed, or a particular spot, and who wants some suggestions as to arrangement of plants ordered. To such a purchaser, we will send a plan free of charge. We ask that you send us with your order, for whatever amount you want to expend, a rough sketch with measurements of that portion of the grounds you want to plant. See page 32 for some desirable assortments at especially low prices. These assortments with our service we know will give full satisfaction.

Service No. 2

(JANET BROWN PLANS) These are those whose plot of ground is comparatively small, yet they want guidance in having a plan that will enable them to plant correctly and one that will give them real artistic effects. We are prepared to help this class of home owners by furnishing a planting sketch for the nominal charge of \$2.00. This amount will be credited on any subsequent orders, amounting to \$20.00 or more. See page 34 for details of this service. Use the blank form when sending sketch and answer all questions.

Service No. 3

For the owners of larger places who while wanting expert advice, yet feel that they do not care to go to the expense of having a representative of Wagner Landscape Service Department call upon them and make a personal survey, we prepare a comprehensive plan drawn to scale. For this plan, we charge \$5.00 and on purchases of \$50.00, or over, of stock, we will credit this amount. Plans from this department can be used as a basis for a planting to extend over several years, if all is not done the first season. They will be found most satisfactory in every way. Use the blank form when sending sketch and answer all questions.

Service No. 4

This is a department we maintain for the planning and planting of Large Home Grounds, Estates, Parks, Factory Grounds, Schools, Universities, Hotel and Sanatorium Grounds, Subdivisions, and Cemeteries. These plans are often prepared by mail, but when possible we suggest a personal survey by one of our landscape architects. Not only will the plans be more accurate and the work given personal attention but a proper arrangement for the plantings and a pleasing landscape will be assured; further, only those varieties will be used which are best suited to your particular needs and from which most artistic effects and results will be obtained. Our terms are most reasonable for such service and will be stated in our correspondence. Please write for appointments.

A black and white photograph of a garden scene. In the background, a gazebo is partially visible through dense foliage. The foreground and midground are filled with various flowers. Large, stylized white flowers with dark centers are prominent at the top and bottom. Smaller daisies and other flowers are scattered throughout. A butterfly is visible in the upper right corner. Several text labels are overlaid on the image, pointing to specific flower types and their corresponding page numbers.
